

# About the exam

## You should read

- Chapters 1–5 and 11 from the textbook
- Lecture slides
- Solutions to problem sets (when relevant)

## Question types

- True/False statements, short justification for the answer
- Short essays and/or analytical questions on specific topics

## Answers

- A perfect answer is complete, but short and focused entirely on the question asked
- Write clearly, and refrain from unsubstantiated assertions and guesses

**Calculators or any reference materials are not allowed**
