

Exam Information

Organic Structural Analysis
CHEM-E8100

Exam on Thursday 19 October 2023 at 9:00 lecture hall Ke1

- Allowed items:
 - One A4 sized “cheat sheet” for your notes (handwritten or prepared by using computer). Both sides of the paper can be used.
 - Writing instruments
- The exam contains three structure determination problems.
- Concentrate on drawing structures and do not write lengthy essays. However, it should be clear how you arrived at your answer.
- You can make notes in the given spectra (signal assignments *etc.*).
- Clearly mark your final answer – preferably by drawing a box or a circle around it.
- ^1H and ^{13}C NMR chemical shift tables will be provided.
- The maximum score is 100 points and the pass mark is 50 points.
- You must return all papers, including scratch papers. However, you can keep the cheat sheet.
