General AI guidelines at Aalto University

Guidance for the use of artificial intelligence in teaching and learning at Aalto University | Aalto University

<https://www.aalto.fi/en/services/guidance-for-the-use-of-artificial-intelligence-in-teaching-and-learning-at-aalto-university>

AI guidelines specific for this course

You are NOT allowed to use AI in Exercises or Exam.

You are allowed to use AI as an additional study-buddy in writing the Lab report = get inspiration and brainstorm with it, but in the report, *you must state which tool you used, and how and where you have used AI.*

You are not allowed to copy-paste any text or material produced by AI: it is not your work, you always have to state everything with your own words.

Plagiarism

You are responsible of the work you submit and it should be your own work.

We follow academic writing practices and maintain academic integrity: **copy-pasting text produced by someone else or AI, and presenting it as yours = cheating.**

Changing just few words or order of the words in a sentence is called *adapted copying* and not allowed.
