

Listen to the audio of the textbook

You can download the app [Otso](#) on your phone.

It works so that you point your phone to the page of the book and then the app plays the audio.

Once you have installed the app, click on “hae kirjaa”, then write “oma suomi 1” in the search field, then click the book cover. The book will be added to your “minun kirjani = my books”.

Then you go to "minun kirjani", click on the book cover and point your phone at the page you want to listen to. The app also gives you a list of the page numbers on which there is audio content.

Electronic copy of the Oma suomi 1 book

You can get ***Oma suomi 1*** as an electronic version of the printed Oma suomi 1 textbook. In the visual version, you can browse the book's spreads like a printed textbook. You can use the zoom tool to enlarge the pages. Tasks cannot be completed directly on pages in a book, but you can mark your own notes like a booklet. There are also a few other tools, such as accent color and underline.

The 1-look version is designed to be used on a computer, but it can also be used on mobile devices. An internet connection is required to use the image version, offline access without a network connection is not possible.

Please note: This is not a PDF-file, but an electronic copy of the printed book, which can be purchased and used at the Finn Lectura Digimateriaalit online service. The electronic copy cannot be used offline. [See detailed instructions](#) for purchasing a digital material.
