Video of the destruction of STU

The State Tax University — is an educational and scientific business card of the Hero City of Irpin.

It is a higher education institution with a 100-year history. The only one in Ukraine that reports to the Ministry of Finance and trains specialists in the field of Finance.

The Tax University — is the alma mater for more than 5,000 students, 335 research and teaching staff, and about 200 graduate students.

Since the period of its foundation, the University has trained over 80,000 professionals, who became part of the intellectual, political and business elite of Ukraine.

The full-scale war of the Russian Federation and the occupation of Irpin city did not break the spirit of the University personnel. Since the occupation in early March 2022, the STU has become one of the largest humanitarian hubs for residents of the Irpin community. The volunteers brought food and clothes, which the University distributed to the victims of the war. About 1,000 people were hiding in our civil defence shelters. Teachers, students and residents of the city – everybody was sheltered. After the de-occupation of Irpin on March 28, 2022, the State Tax University also became a center for providing medical care. Volunteers at the University continue to provide free meals to the affected population of Irpin using the food received as humanitarian aid. More than 100,000 meals had been distributed at the end of January 2023.

At the same time, the facilities of the University could not escape active hostilities. Six student dormitories, four academic buildings, and administrative building

facility, and a sports complex were affected by destruction. In general, 50% of the STU's infrastructure was partially or completely destroyed. According to preliminary estimates, the reconstruction will require approximately EUR 27 million.

Despite the active phase of the war, the University continues to provide educational services for higher education students in 17 specialties and more than 50 educational programs. After all, we are convinced that without high-quality education, national science, and a high level of knowledge of Ukrainian youth it is impossible to build a strong, modern European state.

Therefore, we appeal to our partners, benefactors, entrepreneurs, and anyone who cares about Ukrainian Education, Science, and Culture to support the State Tax University in its restoration.

Below, you can find the 16 key objects of the State Tax University that suffered the most damage.

*Respectfully
yours,
Acting Rector
Dmytro
SEREBRIANSKYI*

CENTRAL EDUCATIONAL AND ADMINISTRATIVE BUILDING (BUILDING A)

31 Universitetska st., Irpin

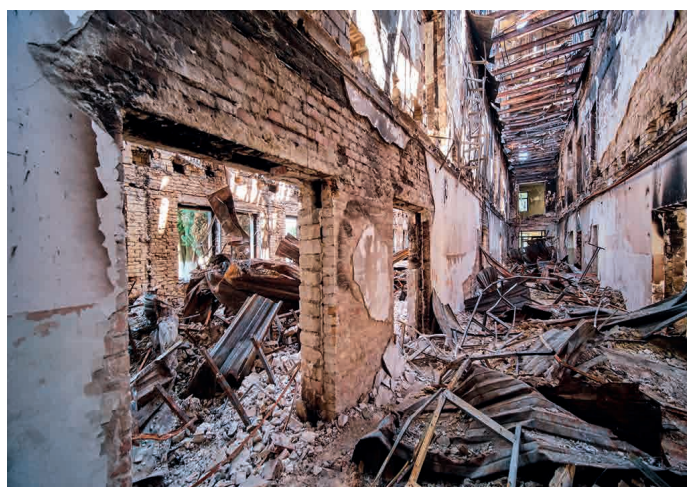

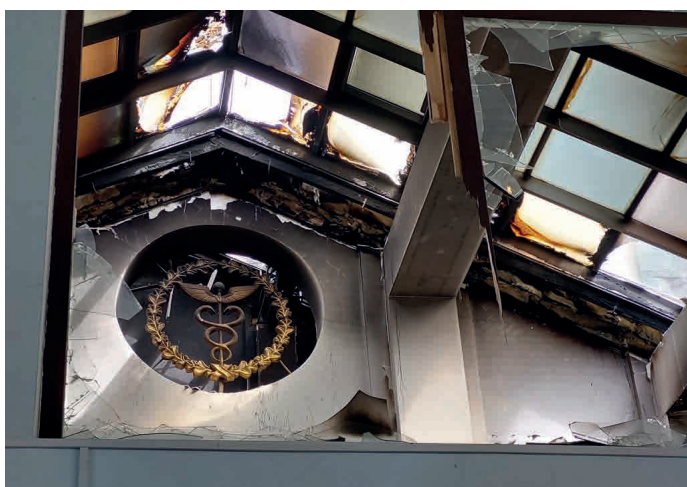

BEFORE THE WAR STARTED

Before the war, the Central educational and administrative building of the State Tax University (Building A), address: 31 Universitetska St., Irpin was well equipped with modern educational technology. There were research institutes, a graduate school, and a college. There was also the assembly hall where celebrations and festive concerts were held. The festival of joy, relaxation, spirituality and immortality of Ukrainian culture was presented to the audience by the Cultural and Art Center "Suzir'ya", which consisted of 12 amateur art groups comprised of students and teachers.

The total area of the building is 10,284.6 m².

AFTER THE AGGRESSOR COUNTRY'S INVASION

As a result of enemy shelling and fire, part of the administrative building was completely destroyed. The building housed the rector's office, accounting department, personnel department, meeting room for official delegations, international department, project office, document management department, student government hub, six educational laboratories, the premises of the Research Institute of Financial Policy. The University's Assembly Hall was significantly damaged.

Photo

The estimated cost of the reconstruction work is €3 000 000

Video

BEFORE THE WAR STARTED

The Sports Hall in building A held special importance for the University. It hosted championships, tournaments, national and international competitions, and other sporting events. Students-athletes of the University used to train here, including masters of sports, Olympic champions and prize-winners, champions of Ukraine, Europe and the world.

AFTER THE AGGRESSOR COUNTRY'S INVASION

The Sports Hall suffered significant damage, including broken windows and doors, and the fire destroyed the roof, indoor premises and utility systems.

Video

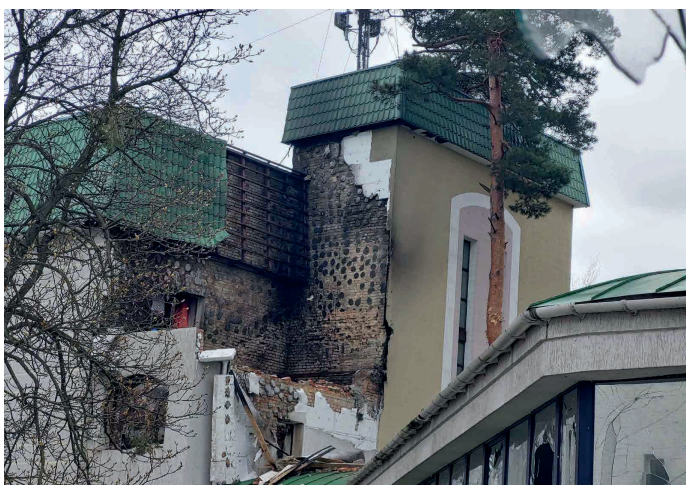

BEFORE THE WAR STARTED

In the Educational and Administrative Building A, there was a favorite student assembly hall, where celebrations, festive concerts, competitions, performances of Ukrainian stars were held, here the beloved cultural and artistic center "Suzirya" delighted the audience with its talent, which included 12 groups of amateur artists. With concert programs, the creative team visited almost all European countries. National song and dance ensemble, known throughout the country, is a winner of All-Ukrainian festivals and competitions.

This student ensemble has always been perceived as a celebration of joy, comfort, spirituality and immortality of Ukrainian culture.

AFTER THE AGGRESSOR COUNTRY'S INVASION

The assembly hall is partially destroyed. It is symbolic that a fire broke out in the educational building due to enemy fire, but the ensemble's national costumes, which were in the costume room of this building, survived.

TRAINING CENTER (BUILDING A6)

31 Universitetska st., Irpin

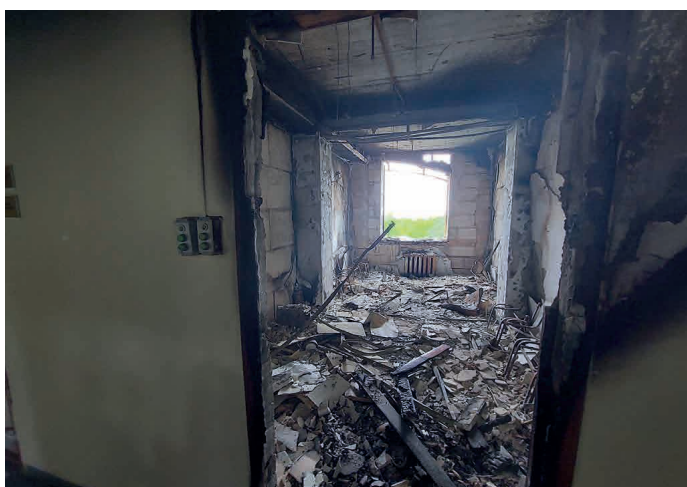

BEFORE THE WAR STARTED

The Training Center has the largest number of lecture and thematic classrooms at the University. Outstanding Ukrainian scientists lectured here in the fields of economics, finance, journalism, management, psychology and sociology. Top specialists from relevant industries and foreign lecturers were frequent guests here. In the center there is the Faculty of Social and Humanitarian Technologies and Management and the famous University Atrium, which surprised guests and students of the University with its architectural originality. The University's Scientific Library and History Museum are also located in the same building.

The total area of the Training Center is 8,428.8 m².

AFTER THE AGGRESSOR COUNTRY'S INVASION

The roof of the Training Center with an area of 1,880 m² was completely destroyed, and the fire damaged the facade with an area of 1,580 m². In addition, 160 m² of the building were completely destroyed and 190 m² of translucent enclosing structures (windows) were partially damaged. 16 classrooms on the upper floors, four training laboratories, the Atrium, the dean's office of the Faculty of Social and Humanitarian Technologies and Management, the classrooms of the Department of Psychology, Pedagogy, Sociology and Language Training, the Department of Language Training and Social Communications need to be repaired. The University has built a new roof with an area of 1,880 m² and a new anti-aircraft lamp, with an area of 241.6 m² above the Atrium at the expense of budget funds. However, additional funding is needed to continue the repair work.

BEFORE THE WAR STARTED

The STU canteen is equipped with modern, specialized appliances. It provides hot meals to students, teachers and staff of the university – about 700 people a day. Comfortable conditions ensured that everyone had a comfortable and pleasant stay in this place.

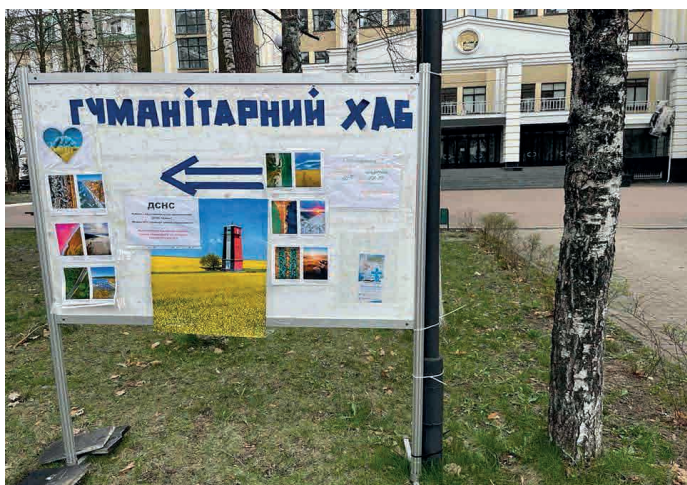

The total area of the Catering unit is 2,954.0 m².

AFTER THE AGGRESSOR COUNTRY'S INVASION

From the first days of the war, the canteen turned into a humanitarian hub, where University employees, their families, as well as the civil settlement of Irpin hid and ate. In total, there were up to 1,000 people here.

To this day, this place remains a humanitarian center, where volunteers provide hot meals for residents of the city who need it. About 200 people eat free meals here every day. As of the end of January 2023, more than 100 thousand free meals have been distributed.

As a result of the hostilities, 50 m² of the roofs of the Catering unit, 150 m² of window structures, 259 m² of facade were damaged.

ADMINISTRATIVE BUILDING (BUILDING M)

48 Pivnichna st., Irpin

BEFORE THE WAR STARTED

The Building houses a Medical Center and a Department of Military Training.

The Medical Centre of the STU included a modern medical and diagnostic center with a wide range of medical services. The center provided qualified medical care not only to students, teachers and staff of the University, but also to all residents of Irpin and Irpin region.

The Military Training Department trains Reserve Officers of the Armed Forces of Ukraine. In the context of the Russian-Ukrainian war, its role for the State has grown significantly.

AFTER THE AGGRESSOR COUNTRY'S INVASION

The area of damage to the roof of the Medical Center is 430 m². As a result of the shelling, 480 m² of windows was knocked out.

At the same address – 48 Pivnichna str. there are household premises: one garage, three warehouses, three workshops, a guard house and a car park – these household premises are almost completely destroyed.

STU DORMITORIES

The Dormitories of the State Tax University form a student town where, before the full scale war, more than 1,500 higher education students lived, as well as 403 employees of the STU with their families.

BEFORE THE WAR STARTED

Adequate social and living conditions were created in the dormitory for the comfortable living of students, postgraduates and university teachers. The rooms were equipped with necessary furniture: beds, wardrobes, tables and chairs. There were rooms for study and recreation. The kitchens were equipped with modern kitchen appliances.

The dormitory is designed for 210 beds.

The total area of the dormitory is 7,418.7 m².

AFTER THE AGGRESSOR COUNTRY'S INVASION

As a result of a direct hit of a shell on the dormitory premises, five rooms were completely burned and two were partially burned. The interior rooms of the fifth floor are currently not suitable for living. Windows with a total area of 426 m² were damaged, mines destroyed an area of 1,240 m² of the roof, shelling damaged a part of the dormitory's facade with an area of 1,561 m². With the funds of patrons, a temporary covering of the dormitory was installed. The issues of roof repairs, replacement of windows and window structures are remain open.

Video

BEFORE THE WAR STARTED

Construction of dormitories for 500 places each with a service block for STU. The readiness of these capital construction facilities before the start of a full-scale war was approximately 70%.

According to the project decisions, the total area of these objects is 17,309.8 m².

AFTER THE AGGRESSOR COUNTRY'S INVASION

The roof and facade of both construction objects were significantly damaged, windows and window systems require complete replacement.

The destruction of this object of unfinished building, obtained as a result of hostilities, significantly increases the cost of restoring the construction in order to complete and put into use.

Photo

The estimated cost of the reconstruction work is €5 350 000

Video

BEFORE THE WAR STARTED

A multifunctional building with small residential rooms, where participants of sports competitions, training courses, guests of the University and the city temporarily lived.

The total area is 4,864.6 m².

AFTER THE AGGRESSOR COUNTRY'S INVASION

There is a direct hit on the wall of the building. Two residential rooms were destroyed. Nowadays, teachers and staff of the University live here, as well as residents of Irpin, who have been left homeless, and displaced people. Part of the administrative facilities from Building A was moved to the first two floors. 60 m² of the roof, 165 m² of windows, 300 m² of the facade were damaged.

SPORTS COMPLEX OF THE STATE TAX UNIVERSITY WITH THE CONSTRUCTION OF A SPORTS AND REHABILITATION CENTER AND THE SUPERSTRUCTURE OF THE STAND ROOF OVER THE TRIBUNES

92 Sadova st., Irpin

BEFORE THE WAR STARTED

Olympic champions and athletes from various Ukrainian teams trained alongside students and ordinary residents of Irpin at the State Tax University Sports Complex.

Among the students and graduates of the University, six students participated in the Summer Olympic Games in Sydney, nine students in Athens, one bronze medalist in Beijing, including the 2008 Olympic Games champion in athletics heptathlon, three bronze medalists: 2000, 2004, 2008. And also nine participants of the Winter Olympic Games.

Over the years of existence of the sports movement at the University, 22 honored masters of sports, 43 masters of sports of international class, 195 masters of sports, and more than 1,770 candidates for Master of sports have been educated there.

Before the start of the full-scale war, 22 sections of the following sports were acting at the STU Sports Complex: freestyle wrestling, judo, sambo, combat sambo, football, horting, taekwondo, futsal, powerlifting, military sports all-around, MMA, kettlebell lifting, arm wrestling, boxing, table tennis, rugby, karate-kyokushinkai, aerobics, basketball, volleyball, sports tourism, chess and checkers. During the entire time, the educational and training process at the University is provided by six Honored workers in physical Culture and Sports and nine Honored coaches of Ukraine, and 12 coaches.

The football field was considered one of the best in Ukraine, where training sessions were held before the European Football Championship Euro-2012.

The total area of the sports complex is 29,347.6 m²

The sports complex consists of:

- physical and recreational complex, which includes a playground where volleyball, football, and basketball competitions are held;
- modern running track;
- fitness room;
- hall for playing sports;
- two halls for martial arts.

As part of the Sports Complex, the University carried out capital construction, in particular, the construction of the Sports Complex included the construction of a Sports and Rehabilitation Center and the superstructure of the stand roof over the tribunes. In the third section, a swimming pool with a water surface of 25m×16m and a simultaneous capacity of 48 people was under construction. The readiness of the construction site was about 70% in general and 80% of the pool.

AFTER THE AGGRESSOR COUNTRY'S INVASION

As a result of the active hostilities in the city of Irpin, a significant part of the Sports Complex of the STU was damaged, including the objects of unfinished construction.

The restoration of the University's Sports Complex will make it possible to open one of the best and largest Sports and Recreation Centres in the Kyiv region in the Hero City of Irpin.
