Comments on the lectures (What would you have wanted less, what more, what was good, what was bad, would you want more or less group type exercises...)

Comments on the exercises (What was useful, what not, what would you have wanted less, what more, what was good, what was bad, ... Were the exercises on the right topics or would you have wanted something else other topic? If yes, what topic?)

Which topics you already knew and where did you learn them?

Which topics would you have wanted to learn (/expected on this course) and we did not cover?

Feedback specifically to teaching assistant (Adam Harmat):
