

THOUGHT GROUP CHILE
THOUGHT, INTEGRAL INFRASTRUCTURE AND URBAN PLANNING SOLUTIONS

June 23th, 2023

Mr.
Tuomas Auvinen
Dean
School of Arts, Design and Architecture
Aalto University
Present.

RE: Participation Code Number and Technical information about the City of Irpin, for development of registered student team's proposals, International Contest for Architecture and Urbanism Students, "Irpin: The Future Horizon".

Thank you very much for having successfully completed the payment and registration process of your student teams that will participate in our international contest.

The Director of the Contest and his work team made a change to this initial Registration Code (Number PayPal Receipt or Bank Transference Registration Payment), for a new Participation Code, which will be the Code with which each team will develop and send their proposals on the day of the final delivery defined for December 18, 2023.

The Participation Code Number for your Students Team is: **T102 / T103 / T104 / T105 / T106**

When the proposal sent by the participating student teams is satisfactorily received by the Director of the Contest, this Participation Code will be changed to the final Code for the Competition, to ensure the complete anonymity of each proposal during the review and decision process of the International Jury.

We are very happy and satisfied, because a large number of universities from all corners of the world paid and successfully completed the registration process, once the final term considered for such purposes had expired.

In this way, and as it has been programmed, we are sending you a link so that you and your participating student teams can access a Google Drive Folder where we have put all the general and technical information necessary so that you can carry out a comprehensive approach. to the reality of the City of Irpin, before the invasion of the Russian army, the destruction and devastation generated in its urban space, and certain guidelines for its future projection:

In addition, in this link, you will be able to find a file that contains the Rules and Specific Technical Requirements of the contest process, the Format of the 3 Sheets, the Explanatory Report and the Video of the Development Process, which will make up each one of the proposals prepared by participating student teams.

Also, you can find through this link the Official Gantt Chart of the contest development process, including its relevant milestones such as the Final Delivery of the participating proposals, the review and deliberation process of our International Jury, and the development of the Ceremony Final Award for the winners of the contest, which will be held in the City of Wroclaw, Poland.

We hope that all this information sent will be useful for the participating student teams.
For further information you can also visit our Official Web Site Page: www.icausirpin.com

If you have any questions or concerns about this information, do not hesitate to contact us.
I look forward to seeing your comments and confirmation of receipt of this sent information.

All the best for you,

Cristián Alfredo Wittig Grell
