

ARK-E1025 - Urban Narratives

ARK-E1025 - Urban Narratives

Duration: III, V periods. Start on Friday 12.1.2024.

Sessions during III and V periods at 9:15-12:00.

Location: F101 Väre.

The course will focus around making a presentation that utilizes moving images in telling about an urban environment or phenomena. This can deal with the design the student is working on in her Studio, or some other location/issue - the goals of the assignment will be outlined by the student herself and discussed during the course.

ARK-E1025 - Urban Narratives

A set of lectures in the first spring period (period III) are meant to shed light on different viewpoints having to do with the moving image, and a series of 'seminars' in the last period (period V) are used as 'mid-term reviews' or discussion sessions, visitors discuss aspects of filmmaking and where students can present their work and thinking in progress. The IV period is meant for independent work, and starts with a visit to Aalto Studios.
