Wiki project checkpoint

- Wiki Project is in the Peer review stage during **26.2.–3.3.**

- You will find your peer review assignment from the Wiki Work Plan.

- In Spring 2024, each student will review **two Wiki pages**.

- Study the [Peer review instructions](#) before carrying out the peer review.

- In addition to peer comments, you will get additional comments from Wiki editors (Dr. Toni Eskelinen or Antti).
  - You will get these comments by Monday **11.3.**

- Wiki project is finalized by completing the **Final submission for the Wiki project** activity in MyCourses.
  - Activity opens on **Monday 11.3. at 16:00.**
  - Final deadline for the Wiki project: **Friday 22.3. at 18.00.**

Peer review checklist

- Is the introduction clear? Is there enough background information to understand the broader context of topic?

- Is the text coherent and logical?

- Are the figures clear?

- Is the overall presentation clear?

- **Very important**: Are the used references relevant and reliable sources of information?

- **Very important**: Does every figure clearly state the source of the figure? For figures from external sources, the **license** needs to be mentioned, too.

- **Only self-made or openly licensed figures are allowed in the Wiki!**
