

# Guest lectures

Timetable				
Week	Date	Lecture time	Topic	Lecturer
6	9.2.2024	12:00-14:00	Guest lecture: Protection in transmission system	Mikko Holmgren, Fingrid
10	8.3.2024	12:00-14:00	Guest lecture: HVDC & FACTS	Kimmo Nepola, Fingrid
11	15.3.2024	12:00-14:00	Guest lecture: Power generation grid integration and flexibility solutions in power systems	Antti Kuusela, Fingrid
12	22.3.2024	12:00-14:00	Guest lecture: Frequency control, reserves and balancing power	Mikko Kuivaniemi, Fingrid

- It is mandatory to participate the guest lectures and make lecture diaries of the lectures. If you are not able to participate some of the lectures, contact: [janne.seppanen@aalto.fi](mailto:janne.seppanen@aalto.fi)
- Lecture diaries are maximum 1 page texts. You may discuss for example some of the following questions:
  - What were the main topics and main messages of the lecturer?
  - What interested you the most?
  - Which new topics did you learn? Was there something completely new or did you change your view about some topic?
  - Was there something that you did not understand? Do you have some questions about some topic?
- Lecture diaries are not graded, but it is mandatory to return them to MyCourses.
