

In addition to the problem sets and practice exam, please consult slide sets 1-5 when preparing for the exam, and slides 1-13 of slide set 6 (before "nominal exchange rates"). The exam will not require a calculator.

The following material from the slides will definitely not appear on the exam:

- Robotisation and Climate change/DICE/IAM (slide set 2)
- Inflation indexed bonds, government debt crises and owner-occupied housing (slide set 3).
- Material on slide set 6 after "nominal exchange rate".

If you have questions, please let us know. Thanks very much for taking the course and best of luck with all of your current and future studies!
