

Aalto University School of Science, Department of
Mathematics and Systems Analysis is looking for

New hourly-paid teachers in mathematics and systems analysis for fall term 2024

Your tasks include teaching in exercise groups and grading exercises and exams.

Regarding teaching in mathematics, we expect the applicants to have completed at least 20 credits of mathematical studies at university level with good grades. Regarding teaching in systems analysis (courses MS-C/E2xxx), we expect the applicants to have completed the course they would like to teach. If you have previous experience in teaching, it is considered as an advantage, but is not necessary. This is a part-time job (2-4 hours/week). The salary is 30-40 euros/teaching hour based on your education level.

Grading exercises and exams will be (typically) compensated separately (300-400 euros depending on your education and the course level).

Go to math.aalto.fi/en and apply for this job through an eRecruitment system (application link in the advertisement on the front page).

Attach an open motivation letter, a cv and a transcript of record as one PDF file.

Deadline for the applications is Monday 6 May 2024.

Based on the applications, we will invite some of the applicants for a web interview.
