FINAL RESULTS Evaluate in the last Project Review only.	
Compare the results to the goals you set in the beginning of the project. If the goals changed during the project, compare the results to the changed goals. Consider a more lenient evaluation if the project's difficulty increased due to factors beyond the student team's control, such as major client-initiated changes, unrealistic client expectations, or unforeseen challenges for which the team could not have reasonably prepared. 15-13p Exceeds expectations in a concrete manner 12-10p Meets expectations 7-9p Slightly below expectations 4-6p Clearly below expectations 1-3p Far below expectations 0p Failed
