We invite each group to explore the building, its interior spaces and near surroundings, pay attention to all details and the feelings you will experience while walking the building.

Subjects to explore, e.g.

- Scale
- Hierarchy of spaces
- Materiality
- Light and shadows
- Transparencies
- Reflections
- Sounds
- People flow
- Aroma
- Etc.

"Use all your senses..."

Document the most relevant experiences in text, images, video, drawings, etc.

B)

15:55–16:10

Together with your group, select a spot according your collective interest, you will have to quickly decide about the site and get familiar with its qualities and possibilities.

C)

16:10–17:00

“Build an experience catcher”

Using the material we will provide, build with your team an artifact, space, sign, etc. that will help other people to experience what you have found on that particular spot.

D)

17:00–18:00

Present your findings to your colleagues and the experiences you wanted to underline choosing that particular spot and building a particular structure, installation, etc.

Thank you!
