

GROUP WORK PRESENTATIONS

Create a Power Point (or other format) presentation

1. What was the data you were working with (very briefly)
2. How you interpret the analysis challenge?
3. Are there links to the research literature?
4. The results: What did you find out?
5. How the results can be used in planning?
6. Are there suggestions that you can make?

TIME: 12 min/ group

You can:

- Include further material related to your analysis
- Mark on the slides: who did what

NEXT TIME: FINAL MEETING!

Our city partner will visit us between 12.15-13.15

In the morning you will still have some time to finish your presentation or to get feedback about it

After the meeting with city partners, we will have some time for final discussion
