

WE MAKE THE WORLD LAST LONGER

Excursion 25.2.2019, Teknos Rajamäki

WHO WE ARE?

We are one of Europe's leading suppliers of industrial coatings with a strong position in retail and architectural coatings. We have long heritage within the industry as a family owned company.

We focus sharply on the quality and performance of our products, invest heavily in research and development, and have a strong focus on environmental issues to ensure we meet, and even exceed, today's versatile needs of our customers.

TIMETABLE

| | |
|----------------------------------|-------|
| Bus leaves from Aalto University | 11.30 |
| Arrival to Rajamäki Factory | 12.30 |
| Lunch | |
| Teknos, Who We Are? | 13.15 |
| What is paint? | 13.30 |
| Chemist's day | 14.15 |
| Factory tour | 14.45 |
| Coffee break | |
| Bus back to Aalto University | 16.00 |

We are on our mission to **make the world last longer** by providing smart, technically advanced paint and coating solutions to protect and prolong – always working in close cooperation with our customers.

ARCHITECTURAL COATINGS / INDUSTRIAL WOOD

We believe the key to long and trouble free service life of exterior and interior joinery lies in selecting the optimum coating system for the end use, exposure conditions specified and choosing products tailored to the joinery manufacturing process.

POWDER COATINGS

In this area, we have also reached the position of market leader in the Nordic countries and we have a growing presence across the rest of Europe. Being completely solvent free and able to eliminate VOC emissions, powder coatings are an environmentally friendly choice for paint shops and industrial professionals.

WET METAL PAINTS

We are the leading supplier of industrial paints for the metal industry in the Nordic countries and we have a growing presence across the rest of Europe. Within this segment, we serve a variety of professional customers based on a range of paint technologies, from traditional alkyd paints to high tech polyurethanes.

TEKNOS TRAINEE PROGRAM

Teknos Trainee Program is aimed for university students who are in their master's studies.

We offer Trainee positions for students from the field of technology, economics or chemistry, but there can also be opportunities for students from other fields of study (e.g. IT). Teknos Trainees will take over short projects over different Teknos functions and segments. Teknos Trainee Program will give a good general understanding of a global business and can serve as a beginning for your future career. As a Trainee you will get a chance to work with our engaged and enthusiastic professionals in an international organization.

Second Teknos Trainee Program starts in spring 2019. The application deadline is 10th of February 2019. Follow Teknos in LinkedIn to get first insights about the Program.
