

Assignment 6.3 2020

Exercise 1.a Lights and materials

Create your selfportait out of given materials. The element you will handle is light in copying machine.

Try to benefit the given materials and their natural character and give new meanings to them.

Make observations of yourself and try to find elements that can describe you and your habitus the way you want.

What is essential in you- significant –what you want to underline.

Play with yourself and the material. Do not overthink; let the materials and the light do their work.

Place a plastic paper underneath the copied materials so that materials do not harm glass.

Copy the created image. Take a black and white copy. Check the density of the photo from machine to get a good copy.

Exercise 1.b Who am I

- a) write a short description of yourself ; $\frac{3}{4}$ of a 4 paper who you are , where you are from, what you study and why you choose that discipline.

Then from th written text **underline** all **adjectives** from the text,so **descriptive** words that tell what kind you are, where yu are from. Then underline all
