10.00-11.00	Practical issues about the course & what next

# Teaching practice aims to

- Develop participant's teaching skills
- Adapt learned theory to participant's teaching practices
- Give an opportunity to have guidance to plan and conduct teaching but also to try something new in teaching.
- Support reflection to develop participant's teachership and pedagogical expertise.

**How do you feel about teaching  
practice now?**

# Reflection and discussion in small groups (15 min)

Pick one picture which describes your thoughts and feelings now

# Your personal learning goal, how did it go? Sharing first in pairs, then all together

- What would you like to learn in the course? Write down (as a file to your own laptop) your own learning goals for this course.
- What kind of new activities would you like to use in your course or your teaching?

Go back to your thoughts in August. How do you think you have gained goals you had? Or did you reach something else?
