

LC-1114 Communicating Technology H5

Assignment 3: Description of the solution

Pattern of organisation: Extended definition

Topic: The solution proposed in your Assignment 2 (introduction, problem-solution paragraph)

Audience: Decision makers, educated but non-expert

Length: 250-300 words

Deadline 1: Bring a paper copy to our next class for peer feedback and submit a copy to MyCourses.

Deadline 2: After the peer feedback, make any necessary changes and submit a copy for teacher feedback through Turnitin by 23:55 pm on 17th February (*Please submit *both your introduction and extended definition paragraphs as one cohesive text* to Turnitin)

Write an extended definition of the solution that you introduced in Assignment 2. This definition will become the body section of the full recommendation report, explaining and describing the key properties of the recommended technology or method to your client. Research the solution in terms of its key properties. Write an extended definition based on 3-4 types of defining information about the solution (amplification methods). The extended definition must be a coherent text and based on at least 2-3 sources (mentioned both in the text and at the end in the list of references!)

Assignment 3 must include the following elements:

- Description of the solution (extended definition consisting of):
 - Sentence definition
 - 3-4 types of defining information (amplification methods) to describe the solution. For example:
 - Analysis of parts (What are its parts or types?)
 - Operating principles (How does it work?)
 - Applications /example (How is it used or applied, by whom?)
 - Analogy/Comparison (Is it similar to something already familiar?)
 - Advantages/Disadvantages (What are its strengths / weaknesses?)
 - Physical appearance / features (What does it look like? What are its characteristic features?)
- In-text citations to sources
- List of references (at least 2-3 sources)
- Name of the referencing style you have used in your text!
