

IDENTITY OF SPACE

12.1.- 23.2.2021

Aalto University / Spatial studies MA 1, Module C / Identity of Space

TASK 03 introduction to the final project:

COMPASS SQUARE, HELSINKI RAILWAY STATION (KOMPASSIAUKIO)

Deadline Thursday 4.2.2021, 9.15

The third task is to analyze and documentate our final goal of the course: The Compass Square at Helsinki Railway Station. We'll prepare the material for the final task by unfolding the main atmospheric features of the space. This will be done by the groups so that each group selects and concentrates one of these characters to be presented in the next review:

1. Group 1: lines / graphical qualities
2. Group 2: volumes / forms
3. Group 3: textures and patterns
4. Group 4: colours
5. Group 5: light / shadow qualities
6. Group 6: rhythmic qualities

Later the findings of each group will be shared commonly to be used in the final phase.

Use the methods learnt in the first task and present the outcome freely in pdf format in max. 15 minutes / a group. You can include material such as photographs of the original condition, manipulated photographs, plans, sections, details of the features, etc. to clarify the situation. The aim is also to collect and prepare proper documentation and material for the final project.

Good luck!
