Some general points:

- The goal is a fair assessment of the learning outcomes
- Usual start: "Please explain ..." or "Why is ..." or "Tell me about ..."
- After a short discussion, we may share screen, show a diagram etc. and you need to explain. Or you may need to draw on paper and show to camera
- We are evaluating how deeply you have achieved the learning outcomes. It is not about the number of answers that were correct/incorrect
- We are not correcting or providing feedback during the exam
- If there are any issues, the exam will be aborted (e.g. no camera etc.)
 - make sure that everything works well, and be one time

Administrative Aspects

- Grading scheme: All parts will give points from 0-100:

- For additional exercises: “100%” means 5 points, 80% means 4 points etc.
- Usually 40 Pearson points per week (equal split Bankar/Scheller topics)
