Visiting lecturers were nice. The group assignment was good, practical and wholesome.
One major exercise instead of weekly ones gave more flexibility.
Interesting guest lectures.
Overall the course was good. The assignment were useful when it comes to practical

### 7. What needed improvement on the course? Which factors complicated your learning?

Number of respondents: 3

Vastaukset
There was too much variance in the visiting lecturers' quality. Assignment materials should have been in English. There could be smaller exercises (non-compulsory?) related to the group assignment, so that everyone can practice all the related areas instead of doing "only" their part of the group work.
Maybe have one small mandatory or compulsory calculating or design exercise, so all the students would learn the necessary things. Also tell the visitors to not present their company, because it takes too much time from the topic + same companies are visiting every course, so you hear the company presentations multiple times + you could read this information from their website if required.
No need to improve anything
