

Quick instructions to FLINGA Whiteboard

What is FLINGA?

- FLINGA (Wall / Whiteboard) is a Finnish application. FLINGA Whiteboard enables collaborative work, discussion and taking notes at the same time on a same whiteboard.
- Flinga works in the browser on most devices (computer, tablet, phone).
- The next two slides presents you quickly the first steps how to use FLINGA Whiteboard.

1. Choose a color →

2. Choose a shape

3. Write a message

4. Send

Import pictures from here

Group 1

Group 4

Group 2

Group 3

You can change the location of the shape by dragging it.

After working around your own group and shapes, you can centralize all the shapes here and see the whole whiteboard at a glance.

You can remove the shape and the message by 1. clicking the shape and 2. clicking the trash can image.

You can create a link between two shapes by dragging one shape over the other shape and back.

Remove the link by clicking the unlink image.

Click the link and you make it an arrow.
