

Wiki project checkpoint

- Wiki Project is in the Peer review stage during **28.2.–7.3.**
- You will find your peer review assignment from the Wiki Work Plan.
- In Spring 2022, each student will review **two Wiki pages**.
- Study the [Peer review instructions](#) before carrying out the peer review.

- In addition to peer comments, you will get additional comments from Wiki editors (Eeva Rautama, Elisabeth Albrecht, Kim Eklund, or Antti Karttunen).
 - You will get these comments by Friday **11.3.**

- Wiki project is finalized by completing the **Final submission for the Wiki project** activity in MyCourses.
 - Activity opens on **Friday 11.3. at 16:00.**
 - Final deadline for the Wiki project: **Monday 21.3.**

Peer review checklist

- Is the introduction clear? Is there enough background information to understand the broader context of topic?
- Is the text coherent and logical?
- Are the figures clear?
- Is the overall presentation clear?
- **Very important:** Are the used references relevant and reliable sources of information?
- **Very important:** Does every figure clearly state the source of the figure? For figures from external sources, the **license** needs to be mentioned, too.
- Only self-made or openly licensed figures are allowed in the Wiki!
