Working methods

Discussing together

Participating in exercises

Engaging with guests and colleagues

Respecting each other

Being curious and open-minded

Writing and speaking

Guidelines

Many of you do not need the credits but are interested in the material. Regardless of why you took the course – we are excited to have you and work with you. This course is 54 hours of work to attain 2 ECTS.

To Pass:

- Complete all of the mandatory assignments
    - We will mark "mandatory" and "not mandatory" on assignments
    - Assignments have "expected" deadlines. All assignments need to be completed to pass.
    - We are all researchers and scientists – so the assignments need to be done well – not publication level with citations. This is negotiable.
    - Word counts are arbitrary – if you want to write more, please do so. If you have time to write an exceptional short text, please do so.

- Be present in each session.
    - We start at 15:15, so be ready to start then. If you are late, don't apologize – we understand. But please be on time.
    - Don't leave at 17:00. The course runs until 17:50-18:00.
    - If you are ill, or have extenuating circumstances – let us know.

If you are not in the course for credits?
    - We are happy to have you there. It's great.
    - Do all of the mandatory assignments, anyway. The learnings are in speaking, listening, reading and writing.
