Exam content and structure

The exam measures your knowledge of all course content: the written learning material, Zoom-lectures and exercises.

The exam consists of the following elements:

- Definitions and small content-related questions (we expected short but complete answers)
- Questions related to exercises
- Small essay questions
- Essay questions

Course grading

1. Course grading scale is 0-5.
2. Course grading is based on the exam (60 %), exercises (30 %) and in-class exercises (10%).
3. The exam and all exercises must be passed to get credits for the course.
4. In-class exercises are not mandatory, but they have an impact on the course grade.
