## Session 2: Study skills

Kyösti Ruuttunen  
21/09/2020

Aalto University  
School of Chemical  
Engineering

# Feedback from Session 1

## Part 1

**“If our academic advisors will contact us to have the required meeting?”**

- Agree upon a meeting time with your advisor on weeks 44-45 (October 25<sup>th</sup> – November 6<sup>th</sup>)
- Questions? Contact your major’s planning officer:  
<https://into.aalto.fi/display/encbme/Contact>

<b>Major</b>	<b>Planning officer</b>
Biomass Refining	Minna Marin
Biotechnology	Anna Mäkilä
Chemical and Process Engineering	Monica Sandberg
Chemistry	Minna Marin
Fibre and Polymer Engineering	Anna Mäkilä
Functional Materials	Minna Marin
Sustainable Metals Processing	Monica Sandberg
Study affairs secretary for all majors	Jenny Thors

# Feedback from Session 1

## Part 2

**“How to plan my career?”**

- → Career Planning Exercises:  
<https://mycourses.aalto.fi/course/view.php?id=30181>

**“how to manage with the Aalto expo event with the different courses going parallel to this?”**

- Programme of the event should be available this week:  
<https://aalto.jobteaser.com/en/dashboard>

**“Number of activities, lectures and lessons provided here so far have already been discussed about earlier in studies and therefore are not necessarily the best use of our time for those who have studied here in their bachelors.”**

- You have also studied mathematics, chemistry, physics in your bachelor's. Should you stop that in your master's?

# Feedback from Session 1

## *Part 3*

**“The Matlab module seems useful”**

**“The corona situation challenges this course in a major way since I think it would be better if we could see each other but I think it'll go well!”**

**“I feel this course could give a lot for a student if you are participating with a right attitude. I think the skills we learn in ALC course are important skills for the life after school.”**

**“Are we supposed to be afraid of misconduct? The picture painted was like we're in the wild west. Statistically, should we be worried/ watch our backs?”**

# Harassment

Helsingin Sanomat,  
September 17<sup>th</sup>, 2019

## Aalto-yliopisto tekee selvityksen muotilinjan simputus- ja suosimisväitteistä, lehtorin nimittämisprosessi keskeytettiin

Dekaani Tuomas Auvisen mukaan muodin opiskelijoiden kuormitus on ollut yliopiston tiedossa. Long Playssä tiistaina yksilöidyistä epäasiallisuuksista hän kertoi kuulevansa ensimmäisen kerran.

## Student Union's (AYY, 2016) survey, in CHEM School

- 24% of the respondents had experienced inappropriate treatment (highest in Aalto!)
- 26% had witnessed inappropriate treatment
- Very low response rate (8% of students)
- New survey under way

# Why Discussing Harassment?

**Message:** We have zero tolerance.

**Good news:** Aalto cares and acts, we have clear rules and measures!

- <https://www.aalto.fi/en/aalto-university/code-of-conduct>
- In CHEM, Anni Rintala is the key person: her **duty** is to act when contacted
- Also Planning Officers, Academic Advisors, other staff will help
- No-one will be left alone with the problem!
