

Master's Programme in Water and Environmental Engineering (WAT)

COURSE TIMETABLE FOR THE 1st YEAR (2020-21)

31.8.2020

LEGEND

The 60 credit Major consists of the common course (15 cr) as well as 45 credits of advanced courses: these can be selected from the courses available above.

The advanced courses include three thematic study paths: the students can either follow those paths or create their own course mix based on their interests. The personal portfolio created during the Introductory course facilitates this decision.

The thickness of the course is indicative for credits / period.
