

Tips on the use of MyCourses

Note! You can navigate between the different sections of the course by clicking on the black **arrows** at the bottom of the site page.

Another note! You can use the progress bar (circled in the picture below in red) to help you navigate from one assignment to another and to keep track of your progress and the deadlines. Click on a block and it will take you to the assignment. Once the assignment is completed, the block turns green. If you miss a deadline or fail an assignment, the block turns red.
