

**31C01100 - Taloustieteen matemaattiset menetelmät - Mathematics for Economists**

**Aalto University - Fall 2020**

*Instructor: Michele Crescenzi*

Midterm Exam, 23.10.2020

**Instructions:**

- You can access the exam questions on the class page in MyCourses on Friday, 23.10.2020, from **9.00** on.
- You must submit your answers on the same day by **11.15**. As you can see, I'm giving you 15 minutes of additional time because I anticipate that it might take a bit longer than in an onsite exam to upload your answers.
- The exam has 4 exercises. You must answer all parts of all exercises.
- You have to upload your answers as a PDF file to MyCourses (as you did for the problem sets).
- During the exam, you can only consult the class material on the class page and the textbook. Do not consult other sources, do not seek help from others, do not surf the Internet looking for answers, do not cheat. We all know that this exam is taking place under exceptional circumstances. By behaving honestly and not cheating, you will make sure that everyone in this course is evaluated fairly. Thank you for your cooperation.
