

Participatory planning

Planner's point of view

**”Why aren’t these
valuable observations not
taken into account in
planning?”**

(A local resident in Facebook)

sagbomskan

What is the goal of participation in the big picture? Is it, for example, enabling growth or reducing the experience of exclusion?

Even large changes can be carried out...planners should be able to combine local knowledge about the place and it's meanings to how the place will be changed and how the change will be communicated.
