

Instructions for MFBM course exam 12.4.2021

The exam will be made through MyCourses Monday 12.4 from 13:00-16:00. (If you have a university approved reason for exam time extensions, e.g. dyslexia or another exam at the same time, contact me and I will make a separate return box that is available until 17:00).

The exam question pdf will become visible in MyCourses Exam tab at 13:00. When that happens you can download/open it and start preparing your answers.

Use a text editor to write your answers. Return preferably as a single .pdf or .docx file

There is also a chat "module" in MyCourses where you can contact me during the exam. I will monitor the chat every 15-20 minutes or so.

The questions have been designed so that only text is needed for answers. Figures can make some of your intended answers clearer, but make sure to embed the figures into the single document, not as separate files.

This is an open exam. You are allowed to:

1. Use course material
2. Google for answers

You are not allowed to:

1. Do the exam with a pair or in a group
2. Plagiarize, so everything in your answers must be your own text, do not cut and paste sentences directly from any source.
