Recording voiceover by 2nd June

- Record a voiceover for the video with your own phone. Each group records their own piece of narration. Please send your files via google drive, dropbox etc. to: anna.berg@aalto.fi
- Pick one person from your group to describe the idea and inspiration behind your work.
- Your narration should be about 30 seconds long.
- Try not to read your lines from a script, but rather memorize them and maybe use keywords to help memory. Reading can be usually heard from the voice and can sound monotonic.
- Please deliver several takes of your narration. We will pick the best one when editing the video.
- Please remember to indicate the name of your group when sending your files. Also send the name of the narrator.

Technical instructions for recording:

- Watch this “how to” video: <https://www.youtube.com/watch?v=HtcQM2VPCxE>
- Please minimize echo in your recording by staying clear from hard surfaces such as table / wall. Middle of a big, silent room is best. If you only have a small room, on the bed under a blanket is the best place to record. Just beware of the blanket moving and creating noise.

Final reflections by 4th June

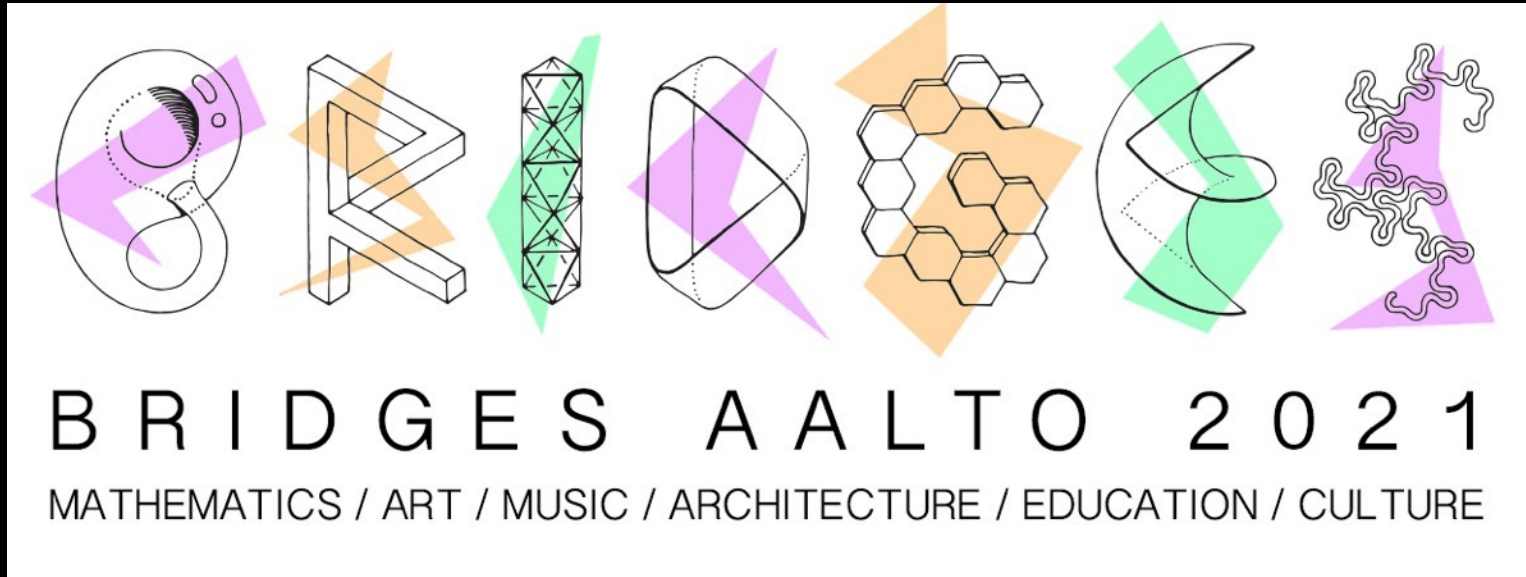

Please take a moment to think about the whole course and write down reflections about your experience. Present a summary about the whole process as you see it from your perspective. How did you succeed? How did your group succeed? Give honest feedback about the course in general.

Especially:

- Give feedback about your experience during the last period (V) and group work
- Give grade (1-5) to your own piece
- Give grade (1-5) to yourself and your group mates

Bridges Aalto postponed to August 2022
