

## ELEC-L0901 Peer Feedback Groups / Fall 2016

The CARS model can be applied in a variety of contexts. For this assignment, you need to use the CARS model to write one of the following:

1. Introduction to a journal article
2. Introduction to a conference paper
3. Research proposals
4. Funding proposal

Make an appointment (with Jan-Mikael, Ken or Anya) for a peer feedback session (90 mins) in MyCourses using the scheduler < <https://mycourses.aalto.fi/mod/scheduler/view.php?id=170569>>. Each group should consist of 3 participants. During the meeting, you will receive 30 minutes of feedback on your text and will give feedback to other participants for the remaining 60 minutes based on a *Peer feedback form* (see email and MyCourses).

Before the feedback session, please

1. **email your introduction** text to other participants and the teacher **3 days before the meeting**.
2. **use the Peer review form** to write down the main points of your feedback.
3. **prepare your feedback carefully** for the other participants (sloppy or shallow feedback is not useful!).
4. **email the filled-in form** to group and teacher, and **bring a copy with you** to the session.

During the face-to-face session, you will explain your feedback and observations in more detail, and your peer will have a chance to ask your clarifying questions.
