

DESIGN FOR THE POSTHUMAN ERA

ACTIVITY

Mapping Relations

Session 11.01.2021

University Wide Arts Studies

1. Mapping relations: Task brief

Creation of a **mindmap** describing the type of relations that have been established between humans and different non-human actors:

- Relations of humans with animals
- Relations of humans and technological artifacts.
- Relations of humans and the environment.

1. Mapping relations: Task brief

Aspects to consider when mapping the relations:

- Non-human actors involved
- Types of interactions (between humans and non-humans, between non-humans...)
- Issue & challenges

1. Mapping relations: working mode

Group work. Groups will be randomly generated.

- Each group will be assigned a Zoom breakout room.
- There will be a workspace for each of the groups in Miro (identified with the group number)

Schedule: 15 minutes for mapping. After this each group will summarise their work with the whole class (3-4 min./group)
