Preface	xi
About the Author	xiii
Acknowledgments	xv
About APICS	xvii
Web Added Value™	xix
Chapter 1. What Is ERP?	1
Top-Management Planning	2
Master Production Scheduling and Materials Management	4
Data Accuracy	7
Bill of Material Accuracy	7
Inventory Balance Accuracy	8
Integration with Lean and Six Sigma	10
ERP as the Starting Point	12
Chapter 2. Class A ERP Performance	17
Material Requirements Planning	17
Manufacturing Resource Planning	18
The Class A ERP Standard of Today	24
Class A ERP Certification	27
Summary	31
Chapter 3. Business Planning	33
Business Imperatives	36
Top-Level Management Systems	37
Tricks in Building the Right Business Plan	38
Financial Objectives Planning	38

Internal Business Process	40
Learning and Growth	42
Customer Influences on Business Imperative Choices	44
Supply Chain Influences on Business Imperative Choices	45
Technology Affecting Business Imperative Decisions	46
How Many Business Imperatives Should You End Up With?	47
Linking the Financial Plans with the S&OP Process	48
Product Planning in Class A ERP	49
The Class A Measurement for Business Planning	49
Talent Review	51
Process Ownership of the Business Plan	52
Summary	52

Chapter 4. Sales and Marketing Planning: Creating the Demand Plan	55
Business Planning as an Input to Demand Planning	56
Marketing Plans as an Input to Demand Planning	57
Sales Planning as an Input to Demand Planning	59
Historical Inputs to the Demand Planning Process	61
Understanding the Outputs of Demand Planning	62
The Weekly Demand Review	62
Process Ownership in the Demand Plan	65
The Measurement Process for the Class A Demand Plan	66

Chapter 5. Operations Planning	71
Product Families	74
Elements of Operations Planning	76

Chapter 6. Sales and Operations Planning	87
Participants to the S&OP and Their Roles in Larger Multiplant Environment	89
Some Thoughts on Alternative Labels for S&OP	91
Roles in the S&OP Meeting	91
Timing for the S&OP Process and the “Monthly Closing of the Books”	94
Agenda for the Pre-S&OP	96
The Spreadsheets for Both the Pre-S&OP and the S&OP Processes	98
Summary: Keys to the Success of the S&OP Process	99

Chapter 7. Master Scheduling	103
The Master Production Schedule	103

Capacity Planning in the Master Production Schedule	108
Rules for Level Loading	114
Linking to the Operations Plan	115
Master Scheduler's Role	119
Master Scheduling Metrics	121
Management Systems Requirements	123
Process Ownership	125
Chapter 8. Class A ERP Material Planning	127
Order Policy Decisions	129
ABC Stratification	131
Process Ownership in Material Planning	131
Material Planning Metrics	132
Integration with Lean and Six Sigma	132
Running the Net-Change Calculation	134
Inventory Management	136
Chapter 9. Class A ERP Data Accuracy Requirements	139
Inventory Location Balance Accuracy	139
Inventory as an Asset	140
Allowing the Elimination of Buffer Inventory	140
Control Groups	141
Physical Inventory	148
Eliminating the Physical Inventory Forever	148
Process Owner of Inventory Accuracy	149
Inventory Accuracy Metrics	150
Bill of Material and Routing Record Accuracy	151
Summary	158
Chapter 10. Class A ERP Procurement Process	159
Why Develop Partnerships with Suppliers?	161
Selecting Suppliers for Partnerships	162
Implementing Supplier Partnerships	165
Aligning the Sales and Operations Planning Processes	167
Information Sharing	168
A Word About Reverse Auctions	168
Logistics as a Competitive Advantage	169
Supplier Performance Ratings and Certification	170
Integration of Lean and Six Sigma in Procurement	172
Process Ownership in Procurement	172
Class A Metrics in Procurement	173

Chapter 11. Shop Floor Control 175

Communicating the Schedule to the Factory 177

The Role of Material Requirements Planning 179

Functional Manufacturing Versus Process Flow 180

Dealing with the Word “Can’t” 183

Setup/Changeover Reduction 184

Customer-Focused Six Sigma Quality 186

Employee Involvement 188

Team Planning and Management 189

Kaizen Events on the Factory Floor 192

Areas of Waste 194

5-S Housekeeping and Workplace Organization 195

Simple Problem-Solving Tools 196

Process Owners for Shop Floor Control 197

The Metrics in Shop Floor Control 198

First-Time Quality 199

Safety 200

Chapter 12. Customer Service 201

Rules of Engagement 203

Customer Service Exceptions 204

Deliver on Time or Ship on Time 204

Process Ownership for Customer Service 205

The Metric for Customer Service 206

Shipping Ahead of the Promise Date 206

Chapter 13. Class A ERP Project Management/Six Sigma Process Integration 207

Class A Project Management 208

Lean-Focused Project Management 209

Six Sigma–Focused Project Management 212

Defects 215

Project Management Structure 215

Chapter 14. Class A ERP Management System 219

Weekly Performance Review 220

Clear-to-Build 224

Weekly Project Review 224

Daily Management System Events 224

Other Management Systems in the Business 229

Chapter 15. Education and Training	231
Class A ERP Education	231
Training Requirements	234
DVD Education for ERP	243
Chapter 16. Class A ERP Performance Metrics	245
Barometric and Diagnostic Measures	245
Starting the Metric Process in Class A	249
Weekly Performance Review	250
Posting the Metrics	250
Chapter 17. A Word About ERP Software	253
Chapter 18. Class A ERP Implementation	257
Steps for Successful Class A ERP Implementation	257
Summary	265
Chapter 19. Class A ERP Integration with Lean and Six Sigma	267
Best-in-Class Lean	267
Lean Tools	271
Customer-Focused Quality (Six Sigma)	273
Other Six Sigma Tools	278
Chapter 20. The Role of Consultants in Class A ERP	281
Payback	282
Appendix A. Summary of Class A ERP Certification Criteria	285
Appendix B. Steps for Successful Class A ERP Implementation	292
Index	293
