

## Entrepreneurship & Intrapreneurship

for the Masters Students in Water and Environmental Engineering

Sonja Hilavuo Aalto Ventures Program

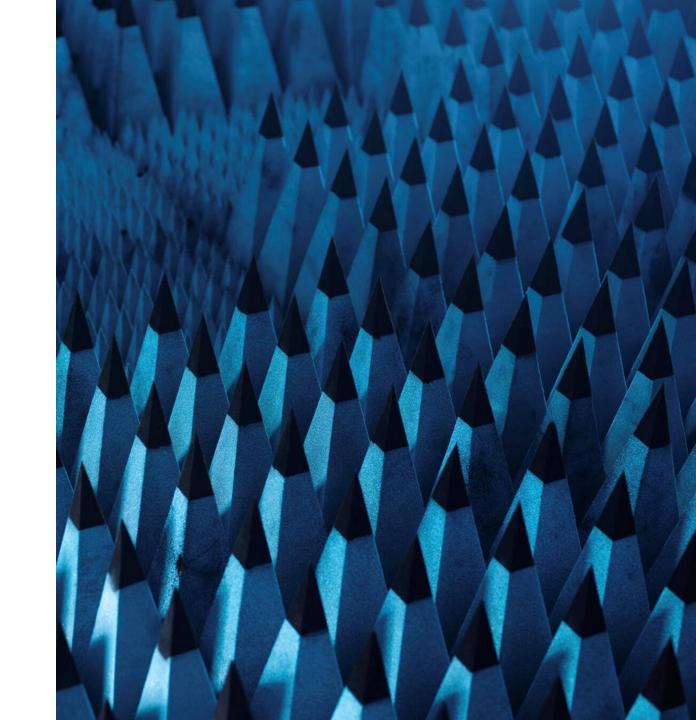

September 26, 2022

## Key outcomes from this week

Introducing entrepreneurial aspects into waste water management

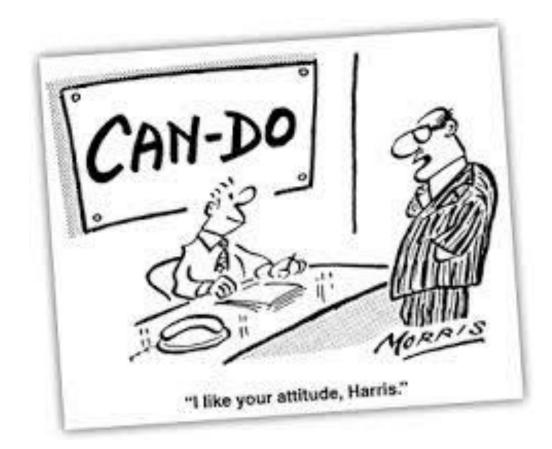

- Understanding customers
- Collecting & analyzing customer insight
- Creating value propositions
- Delivering compelling client presentations

#### **Our Starting Point**

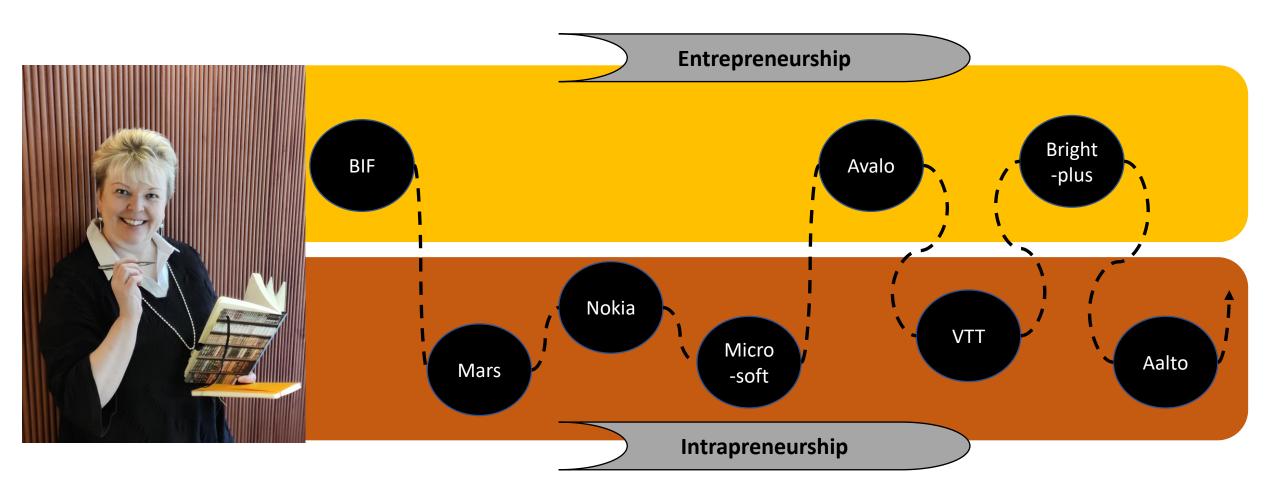

Entrepreneurial mindset

The choices we make and approaches we take

#### Building a personal recipe for happy working life

Analytical thinking and innovation

Active learning and learning strategies

Complex problem-solving

Critical thinking and analysis

Creativity, originality and initiative

Leadership and social influence

Technology use, monitoring and control

Technology design and programming

Resilience, stress tolerance and flexibility

Reasoning, problem-solving and ideation

## TOP 10 Skills in Working life

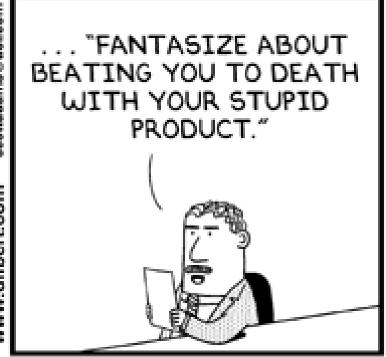

Question	Average master graduate employment survey assesment
Ability to learn and adopt new things	5.58
Problem-solving skills	5.52
Self-direction/initiative	5.46
Analytical and systematic thinking skills	5.38
Co-operation skins	5.34
Information retrieval skills	5.21
Stress tolerance	5.19
Organizational and coordination skills	5.13
Communication in English	5.11
Project management skills	4.97
ICT skills	4.83
Public speaking skills	4.63
Negotiation skills	4.56
200

## Customer centricity & entrepreneurial ways of working

#### Lessons Learned: Know your customer

© Scott Adams, Inc./Dist. by UFS, Inc.

#### Who is the customer?

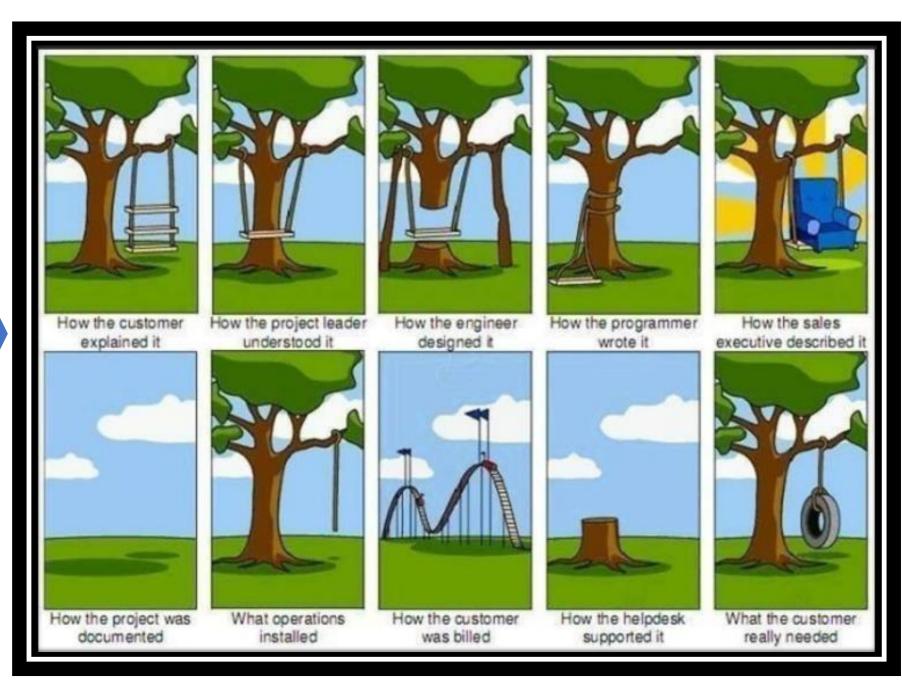

Consumer Company (B2B) Pet..

#### **BUZZ GROUPS**

Preparing our minds

What kind of customers might we find in sparsely populated areas in Finland?

Never miss the fun of being in the customer interface

## Calibrating your entrepreneurial mindset for the WAT project

#### **During this week**

GIS

WHERE the customers are?

**Interviews** 

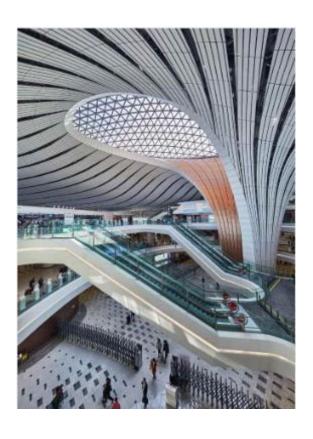

What are the customers' needs, problems or potential opportunities?

**Teamwork** 

How to shape your value proposition to meet the customer needs that you identified?

#### Types of customer value propositions

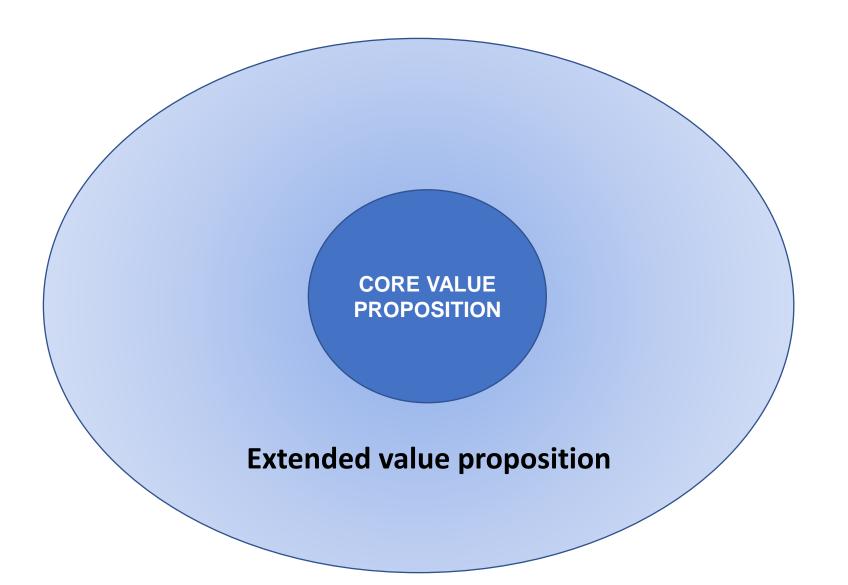

Ice-cream Escalator Portable toilet

#### How to analyze a customer value proposition?

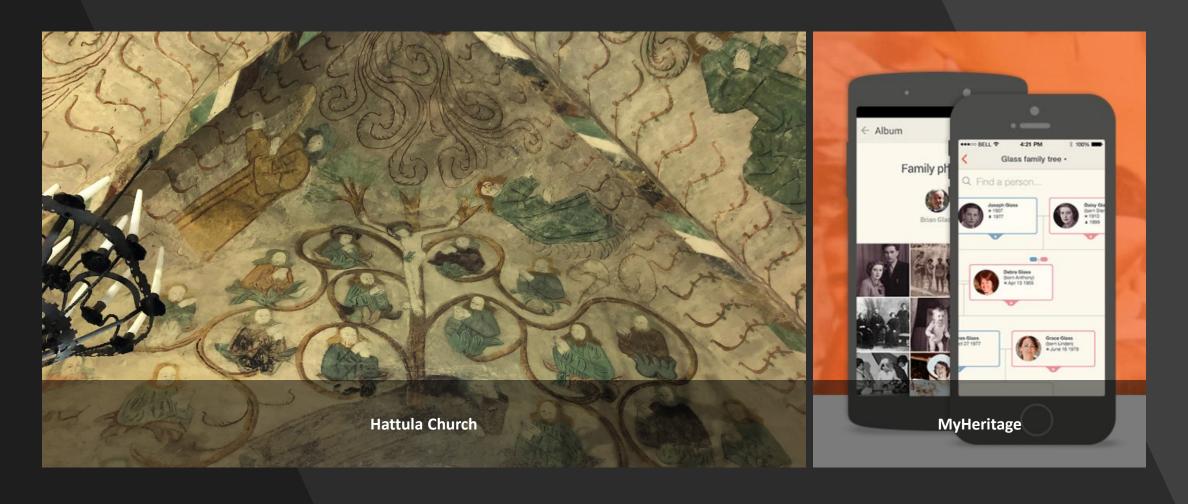

### Example Mobile phone

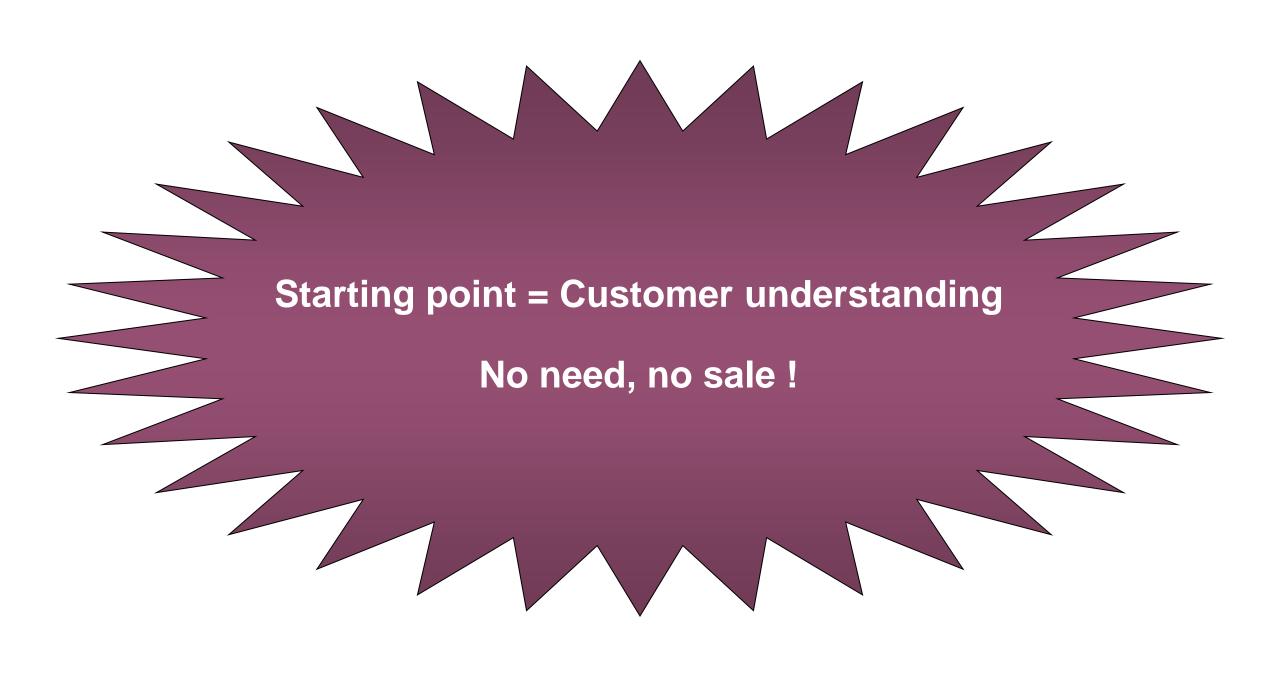

What elements of value can you identify?

#### Selected elements in a B2B value proposition

## Disruptive innovations vs continuous development

#### Considerations for designing a customer solution

# Hints and tips for a customer interview

#### Let's get the basics right

- Quantitative research
- Qualitative research

- Explorative research
- Thematic interviews

Customer insight collection

#### **Explore & seek to understand**

## Seek to understand

- Client's current situation
- Needs, problems, wishes
- Existing practices, how often...
- Competing solutions
- Future concerns
- Wider perspective / size of the opportunity
- How to reach the customer community
- Get to the Root Cause

Find out what you did not now before → Discovery, not (just) validation

#### Careful with these

- Your own assumptions, biases
- Do not sell
- Do not hint towards "right answers
- Interviewee bias presenting "correct" answers
- Cutting answers short, lack of deep listening
- First impressions
- Body language

#### **BUZZ GROUPS**

**Practice round** 

#### The 5 Why's technique

Get to the root cause

Also great technique if you run out of questions

#### Reflection & learnings

## Start with an end in mind

- How to ask questions?
- How to document answers?
- How to analyze the interviews

Raw data Sense making Opportunity **Patterns** Stakeholders Affinity map **Value Proposition** Structures

A B C
