

**Aalto University**

Fall 2022

Your university has purchased access for you to **Mastering Chemistry**

**MasteringChemistry\***, is a research-based online tutorial and homework system which provides a variety of tutorial problem types, each offering a different level of individualized, on-demand coaching and feedback for right and wrong answers.

Your instructor will select the problems that best match your course plan, and these will be shown in your assignments. These questions include **guided hints to coach you** to the right answers. Many of the questions are algorithmic allowing you to practice multiple times. You will also have access to a Study area with additional study support.

Your teacher can also activate Dynamic Study Modules to offer you **additional practice questions on key concepts** allowing anytime/anywhere study options via the DSM app.

*Mastering is designed to support your learning, save you time and improve your final grade.*

**New Students:**

- Go to [mlm.pearson.com](http://mlm.pearson.com)
- Select REGISTER – STUDENT
- Enter **the CourseID** [laasonen47257](#)
