

Procedure used for preparation of Virtual Machine

Please download virtual box and the image for our course [here](#).

Ubuntu Info

```
version: 18.04
username: ros
password: r0sr0s
```

Setup Ubuntu

```
sudo apt install vim htop terminator
```

Include MuJoCo License

The MuJoCo key is not configured in virtual machine image. Follow the instruction on [here](#) to configure it.

Download MuJoCo License key from MyCourse (or [here](#)) and put into there folders: `~/.mujoco/`, `~/.mujoco/mjpro200`, and `~/.mujoco/mjpro200/bin/`, such that you have the following:

```
ls ~/.mujoco
mjkey.txt  mjpro200

ls ~/.mujoco/mjpro200/
bin  doc  include  model  sample  mjkey.txt

ls ~/.mujoco/mjpro200/bin
mjkey.txt  ....
```
