

# Presentation Day Guidelines

ELEC-E8408 Embedded Systems Development  
Mini Project

# Format

- Presentation is a prerequisite for the Mini Project grade
- 24/03/23 (Friday) at 09.00 - 13.00
- Will be held remotely (online)
- Join by general lecture's Zoom session
  
- Requires booking a time slot on [MyCourses](#)
- Section opened from 21/03/23 12:00 and before 23/03/23 23:55
  
- Presentation duration:
  - 7 Minutes for the Pitch
  - 3 Minutes for Q&A

# Structure

- **Present key elements of the SRS, such as:**
  - Context Diagram
  - Interfaces description and requirements
  - Functional requirements
  - Performance requirements
- **Present key elements of the Design report:**
  - Database structure
  - Software design description (UML Diagrams, Screenshots)
- **Provide a user manual and a test plan, follow with the demonstration of the developed solution**
  - Follow a complete journey of the end-user reflecting all main and bonus functional requirements

# Demo

- Please prepare a short video showing how all the functions operate
- Also demonstrate all the key functions during the presentation in real-time

# Bonuses

- Introducing bonus functional requirements
- Providing online repository with a comprehensive readme
- Creativity during the presentation

# Grading

- **Final grade is formed from distinct grades**
  - First draft of the SRS
  - Demo day performance
  - Peer review
  - Final submission
  
- **Demo Day performance grading**
  - Demonstrating full structure of the MiniProject submission
  - How coherent are documentation and developed functionality
  - Quality of the presentation (presentation structure, visualizations, etc.)
  - How smooth and user-friendly goes the demonstration of functionality

# All the best!
