

## **Aalto University Summer School 2023**

### **Workshop: Designing With Others**

Professors Caroline Dionne & Cynthia Lawson Jaramillo, Parsons School of Design

#### **Individually** (10 minutes)

Recall a day on your university campus. Perhaps it was a challenging day for you, or one full of happiness. Regardless, pick a day which was filled with emotion. Describe it briefly. Where were you? What did you do and when? With whom did you interact? What happened? Identify a design component related to this unusual moment or event: a space, an object, a system, protocol or policy, etc.

#### **As a group** (20 minutes)

Take turns going around the table and to hear about each other's memory. If you are not presenting, use this box to write down keywords from what others present.

#### **As a group** (5 minutes)

Designate who from your group will report back to the class. Jot down some notes as to what your memories had in common, and where they differed.
