

Aalto University

Fall 2022

Your university has purchased access for you to **Mastering Chemistry**

MasteringChemistry*, is a research-based online tutorial and homework system which provides a variety of tutorial problem types, each offering a different level of individualized, on-demand coaching and feedback for right and wrong answers.

Your instructor will select the problems that best match your course plan as assignments. These questions include **guided hints to coach you** to the right answers. Many of the questions are algorithmic allowing you to practice multiple times. You will also have access to a Study area with additional study support. Take advantage of the eBook features with the Pearson app that include listening to textbook, Pearson+Video Channels, note taking and flashcards.

Mastering with ebook is designed to support your learning, save you time and improve your final grade.

New Students:

- Go to mlm.pearson.com
- Select REGISTER – STUDENT
