

Material task

14.9.2023

Kirsi Niinimäki

Material task

- Find your group
- Present your discipline and own material interest to others
- Decide which material you will be concentrating
- Select the view to this material; scientific, business, design, sustainability, application areas, multi view.....
- Divide tasks, who is looking for what kind of information
- Construct a power point presentation of your material study
- Remember to add your names to it
- and submit that to MyCourses on Friday the 15th
