EntreComp – The entrepreneurship competence framework

- The development of the entrepreneurial capacity of European citizens and organisations has been one of the key policy objectives for the EU and Member States for many years and is one of the eight key competences for lifelong learning.
- EntreComp describes entrepreneurship as a lifelong competence, identifies what are the elements that make someone entrepreneurial and describes them to establish a common reference for initiatives dealing with entrepreneurial learning.
- "Entrepreneurship is when you act upon opportunities and ideas and transform them into value for others. The value that is created can be financial, cultural, or social".

- JRC Science for Policy Report (2016): EntreComp: The Entrepreneurship Competence Framework.
