The exercise columns indicate the number of exercises solved each week. The bonus points are calculated from the *percentage* of exercises solved each week (the total percentage is rounded to the closest 10 percentage points, and then divided by 10).

The assignments columns indicate whether the assignment has been returned by not graded (*ret*) or accepted (*ACC*) or revision requested (*REV*). B indicates that the assignment was returned on or before the deadline, entitling to two bonus points (assuming that the assignment will be accepted). CQ is 0 or 2 points from giving feedback about the course through the Course Questionnaire. PTS is the total bonus points.
