To qualify as an academic thesis, a master's thesis should meet all the criteria described below to an at least satisfactory extent. The grade assigned depends on the extent to which the criteria have been met.

Definition of research scope and goals

Research scope has been defined

Clearly defined goals

The research questions and hypotheses contained in the scope of research and goals are evident from the thesis.

Command of the topic

The student demonstrates command of the topic and understanding of the scope of research

The student demonstrates understanding of the relevant theoretical framework

The student demonstrates skills in making use of literature and other sources of information.

Methods, conclusions

The student demonstrates ability to choose justified methods for reaching the goals

The student demonstrates ability to apply the chosen methods

The thesis contains references to scientific publications

The thesis presents well-founded conclusions drawn from the results

The results answer the research questions presented

Contribution to knowledge and thesis structure

The thesis is relevant to the set goal

The thesis is a well-organised logical whole

The thesis makes an original contribution to the existing body of knowledge, i.e. it is produced by the student.

Presentation and language

The overall appearance of the thesis is appropriate

The thesis contains no such structural, grammatical or spelling errors that complicate reading.

The thesis is written in coherent, formal style. The thesis is a well-organised, coherent whole.

The given guidelines have been followed.
