

Hello,

Welcome to the Searching for Scientific Information course. My name is Kirsi Heino and I am the tutor for the course. I have graduated from Aalto's predecessor TKK from the department of civil engineering. Now I work at the main library as an information specialist and team leader for information services.

First I would like you to introduce yourself to me. What are you interested in your studies? What are your expectations for this course? What kind of experiences do you have in searching for information?

You can also start compiling a structured list of the best information sources in your field of study. Think about all your studies to come and not just this course. However the list has to be returned to me during the **SECOND PART** of the course. Return the assignments to me by e-mail: [kirsi.heino@aalto.fi](mailto:kirsi.heino@aalto.fi) or you can give the URL of your assignment. I will also comment your assignments via e-mail.

You are welcome to see me at the learning centre if you want to have extra help with the assignments. I am usually here from 9 am to 3 pm during working days. If you want to make sure that I'm present we can agree on a time for your visit.

The deadline for this first part of the course is Tuesday 7<sup>th</sup> March.

Best regards,

Kirsi
