Engineering

Mining sites visit

1. The Schedule

24.04-29.04	Site	Overnight
Monday	Travel	Pyhäjärvi
Tuesday	Pyhäsalmi	Pyhäjärvi
Wednesday	Kemi	Kemi
Thursday	Kevitsa	Oulu
Friday	Terrafame*	Kuopio*
Saturday	Travel	Home

*To be confirmed

2. The Preparation

Research beforehand the mining sites we will visit

- What are the minerals/products they work with?
 - What are the processing operations they use?
 - What are their capacities (design/operation)?
 - Are there known challenges faced by these mining sites?
-
- And of course, prepare the “difficult” questions for our visit

3. The task

Each designated person will compile all possible information about the mine and processing operations

- You will need to ask questions!
- Of course, **everyone** must have an active participation in the excursion

Enjoy this unique opportunity to visit actual mining sites!

4. The outcome

On 04.05.2017, we will finalize the course with a session where you will show a 15 min presentation of your designated mining site

Site	Group
Pyhäsalmi	Peetu, Eero
Kemi	Tekin
Kevitsa	Alex, Otso
