Management Information Systems, Fall 2017, Assignment 5 (7 points)

Enroll to the “**Build your own chatbot**” online course at <https://cognitiveclass.ai/courses/chatbot-course/> by logging in or signing up to **Cognitive Class.ai** (CC.ai) first from the upper right corner. You can sign up with your e-mail or e.g. Facebook account. This CC.ai course is free, and it can be taken at your own pace. The estimated time to take the course is 4-6 hours in total.

For using the **Watson Conversation** software during the online course’s exercises, go to <https://aalto.onthehub.com> and **Sign in next (upper right corner) with your Aalto ID**. Select then IBM, and then Bluemix, and then “IBM Bluemix Promo code – 6 month trial”

Click it, and select “Add to cart”. Select “Check out”, then accept the Academic Initiative Program agreement, provide university and course information, check your contact information, and click “Proceed with order”. Click “IBM Bluemix- instructions – Students” under the Promo code, and follow the instructions from the pop-up screen to complete the process (register your IBM Bluemix trial account, login, click Account > Account type, and copy-paste the promo code you got earlier from the checkout, click Apply).

Complete all five modules of the CC.ai course using Watson Conversation yourself for the course labs, and answer the Review Questions in each module. Take the final test once you have finished all modules. As a deliverable to this assignment, return either the PDF of the certificate or a link to your certificate of passing the course. *Please provide also feedback on the online course.* Note that if you are unable to pass the whole course and get the final certificate, provide details in your deliverable which modules you have done and accomplished using Watson Conversation to obtain partial points. Note, that both the review questions after each module and the final test contribute to the online course’s grade.
