studio 10 + 10  
further project 10

# KOTONA

vuokralla saaristossa - Iniölandet +

ARK-E5502 Puukaupunki-studio, Spring 2018

*Puukaupunki is biannual joint studio run by the chairs of Landscape Architecture, Housing Design, Wood Architecture and Urban Design.*

*The subject of the studio in 2018 is the Turku Archipelago, especially the area of Iniö municipality.*

*The questions to be addressed in the studio concern the enlivening of the area on all scales - from the re-use of existing building stock to infill development and comprehensive change on the scale of the municipality. Affordable housing and the enabling of year round living are priorities in the studio.*

*Teaching language: Finnish / Swedish  
Language of projects: Swedish*

ARK-E5502 Puukaupunki-studio, Spring 2018

*Structure*

*Students work in groups on specific approaches to the studio theme - enlivening the Archipelago - and produce strategic approaches that are then elaborated/contrasted through individual projects.*

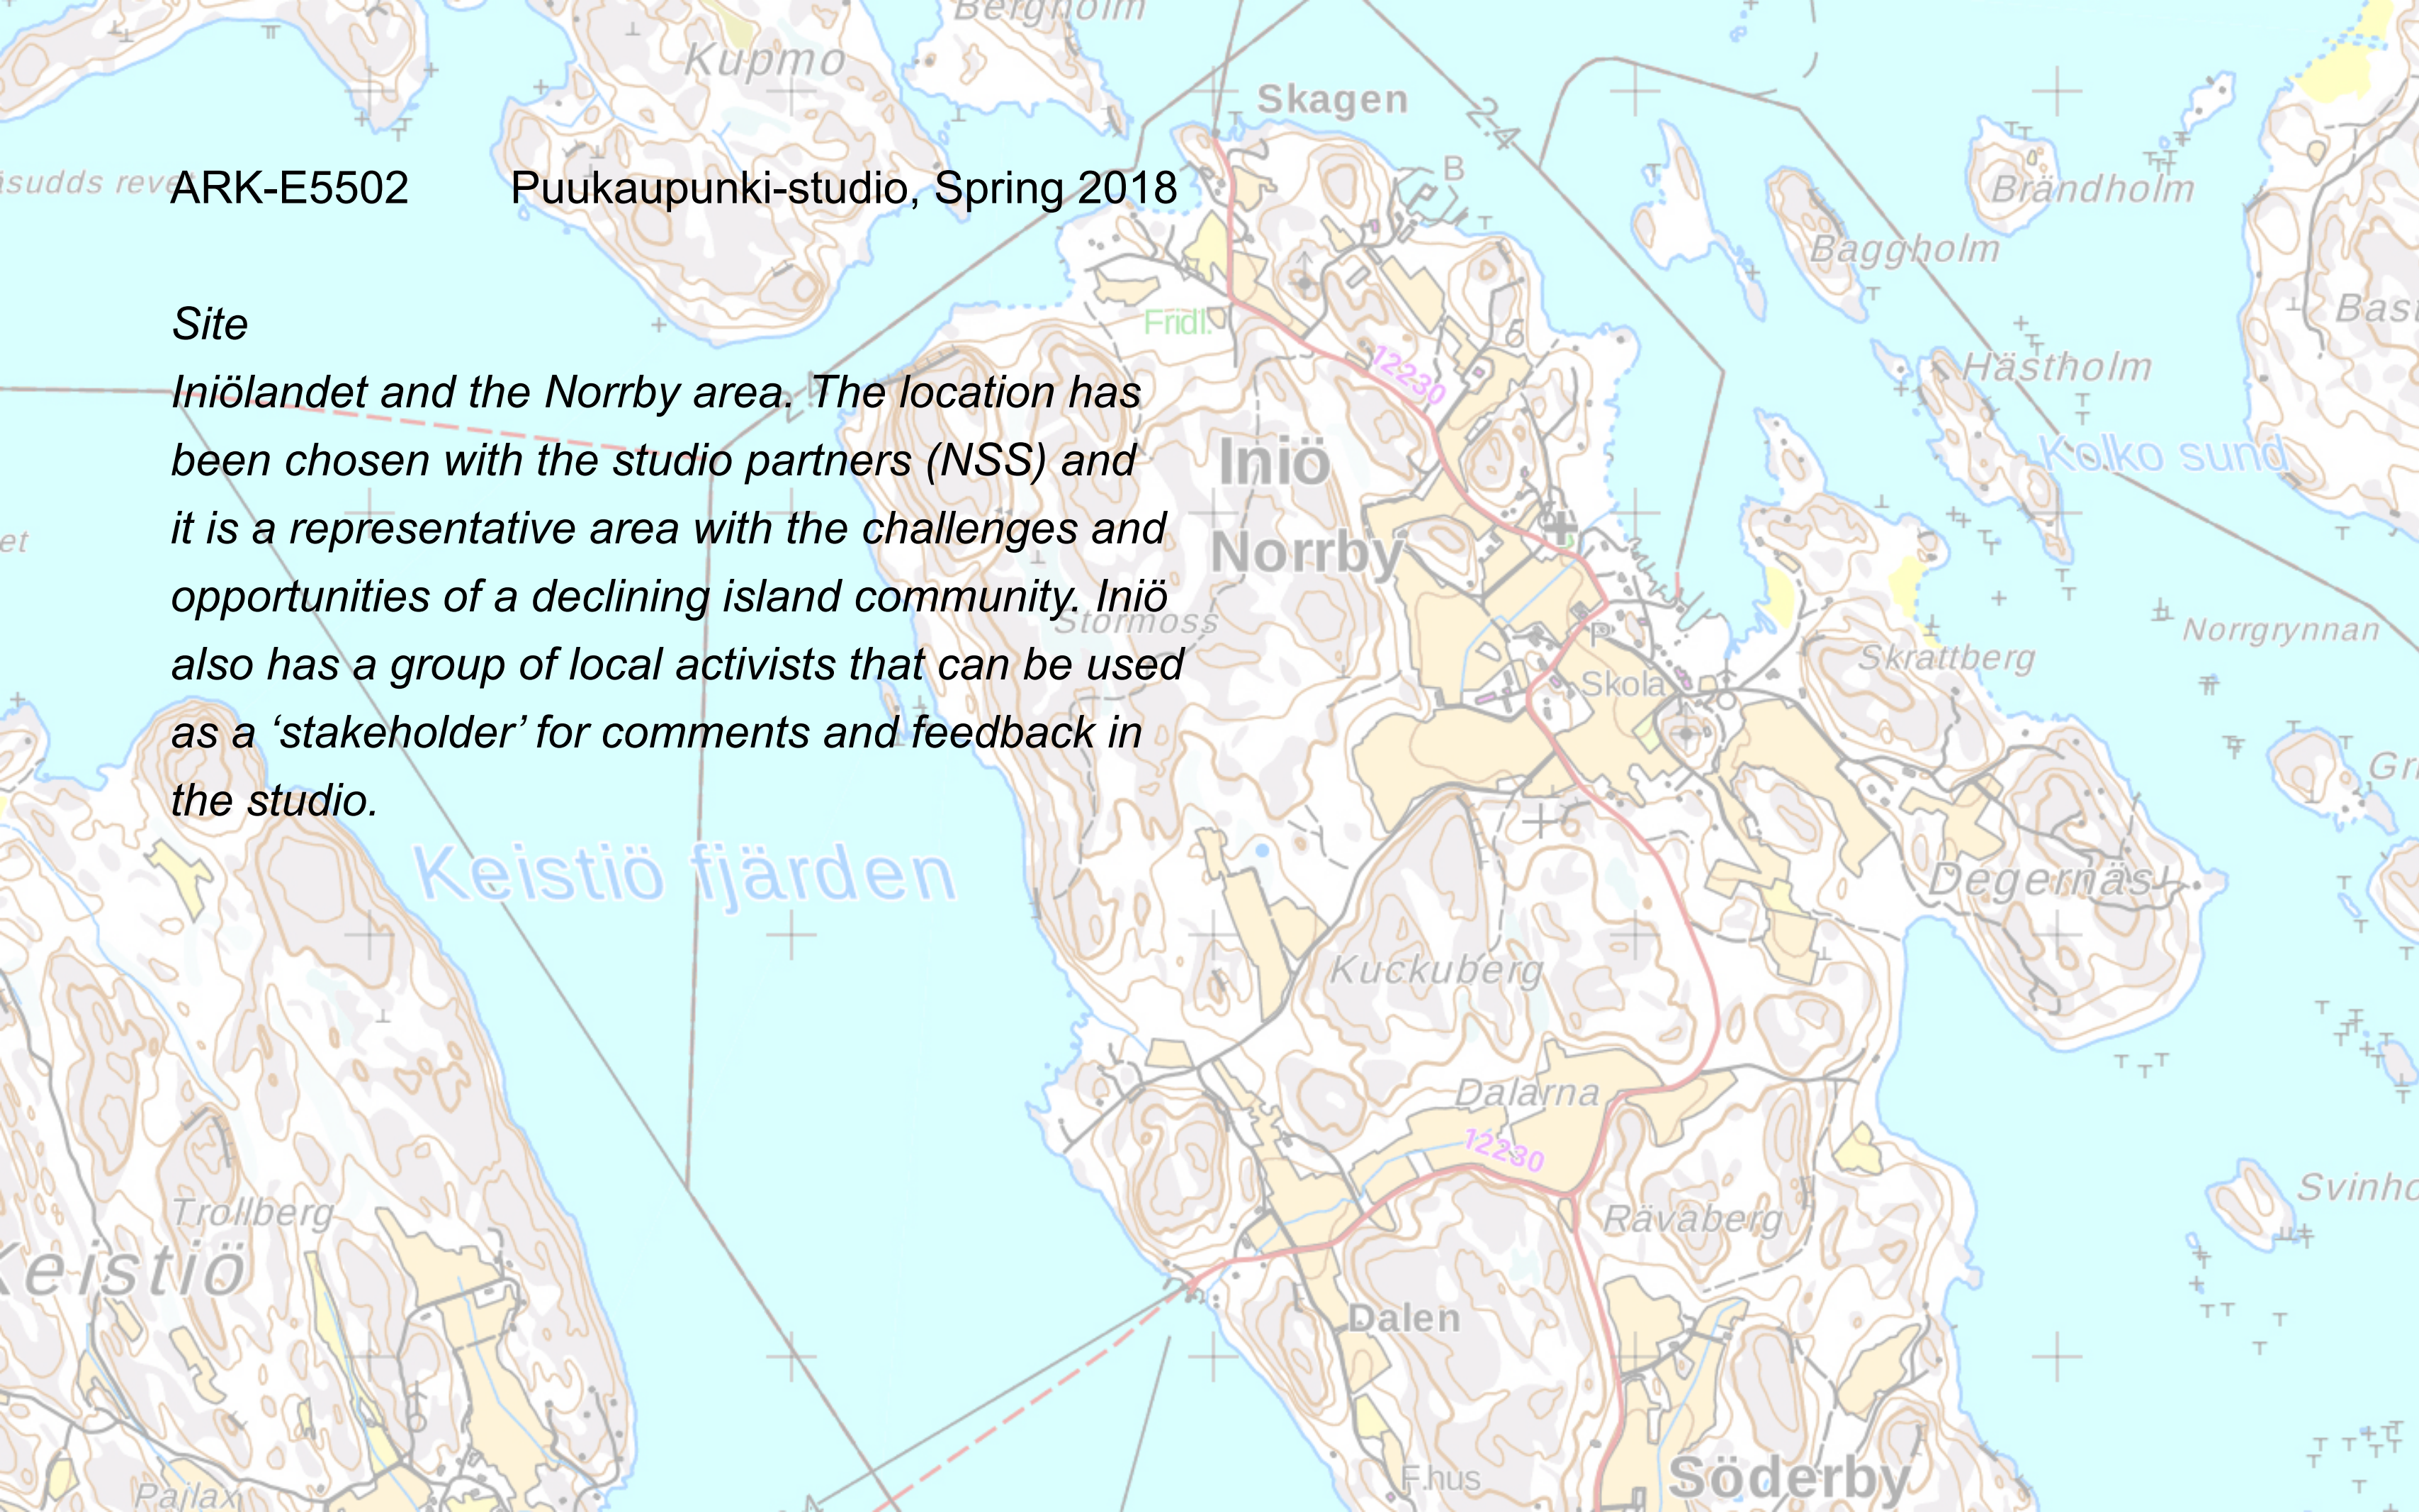

*The students will structure their own work and decide on whether to focus on issues concerning the larger scale of landscape and community, housing design or wood architecture - and get their credits accordingly (marked as a landscape, urban, housing or wood studio).*

ARK-E5502

Puukaupunki-studio, Spring 2018

### Site

*Iniölandet and the Norrby area. The location has been chosen with the studio partners (NSS) and it is a representative area with the challenges and opportunities of a declining island community. Iniö also has a group of local activists that can be used as a 'stakeholder' for comments and feedback in the studio.*

ARK-E5502 Puukaupunki-studio, Spring 2018

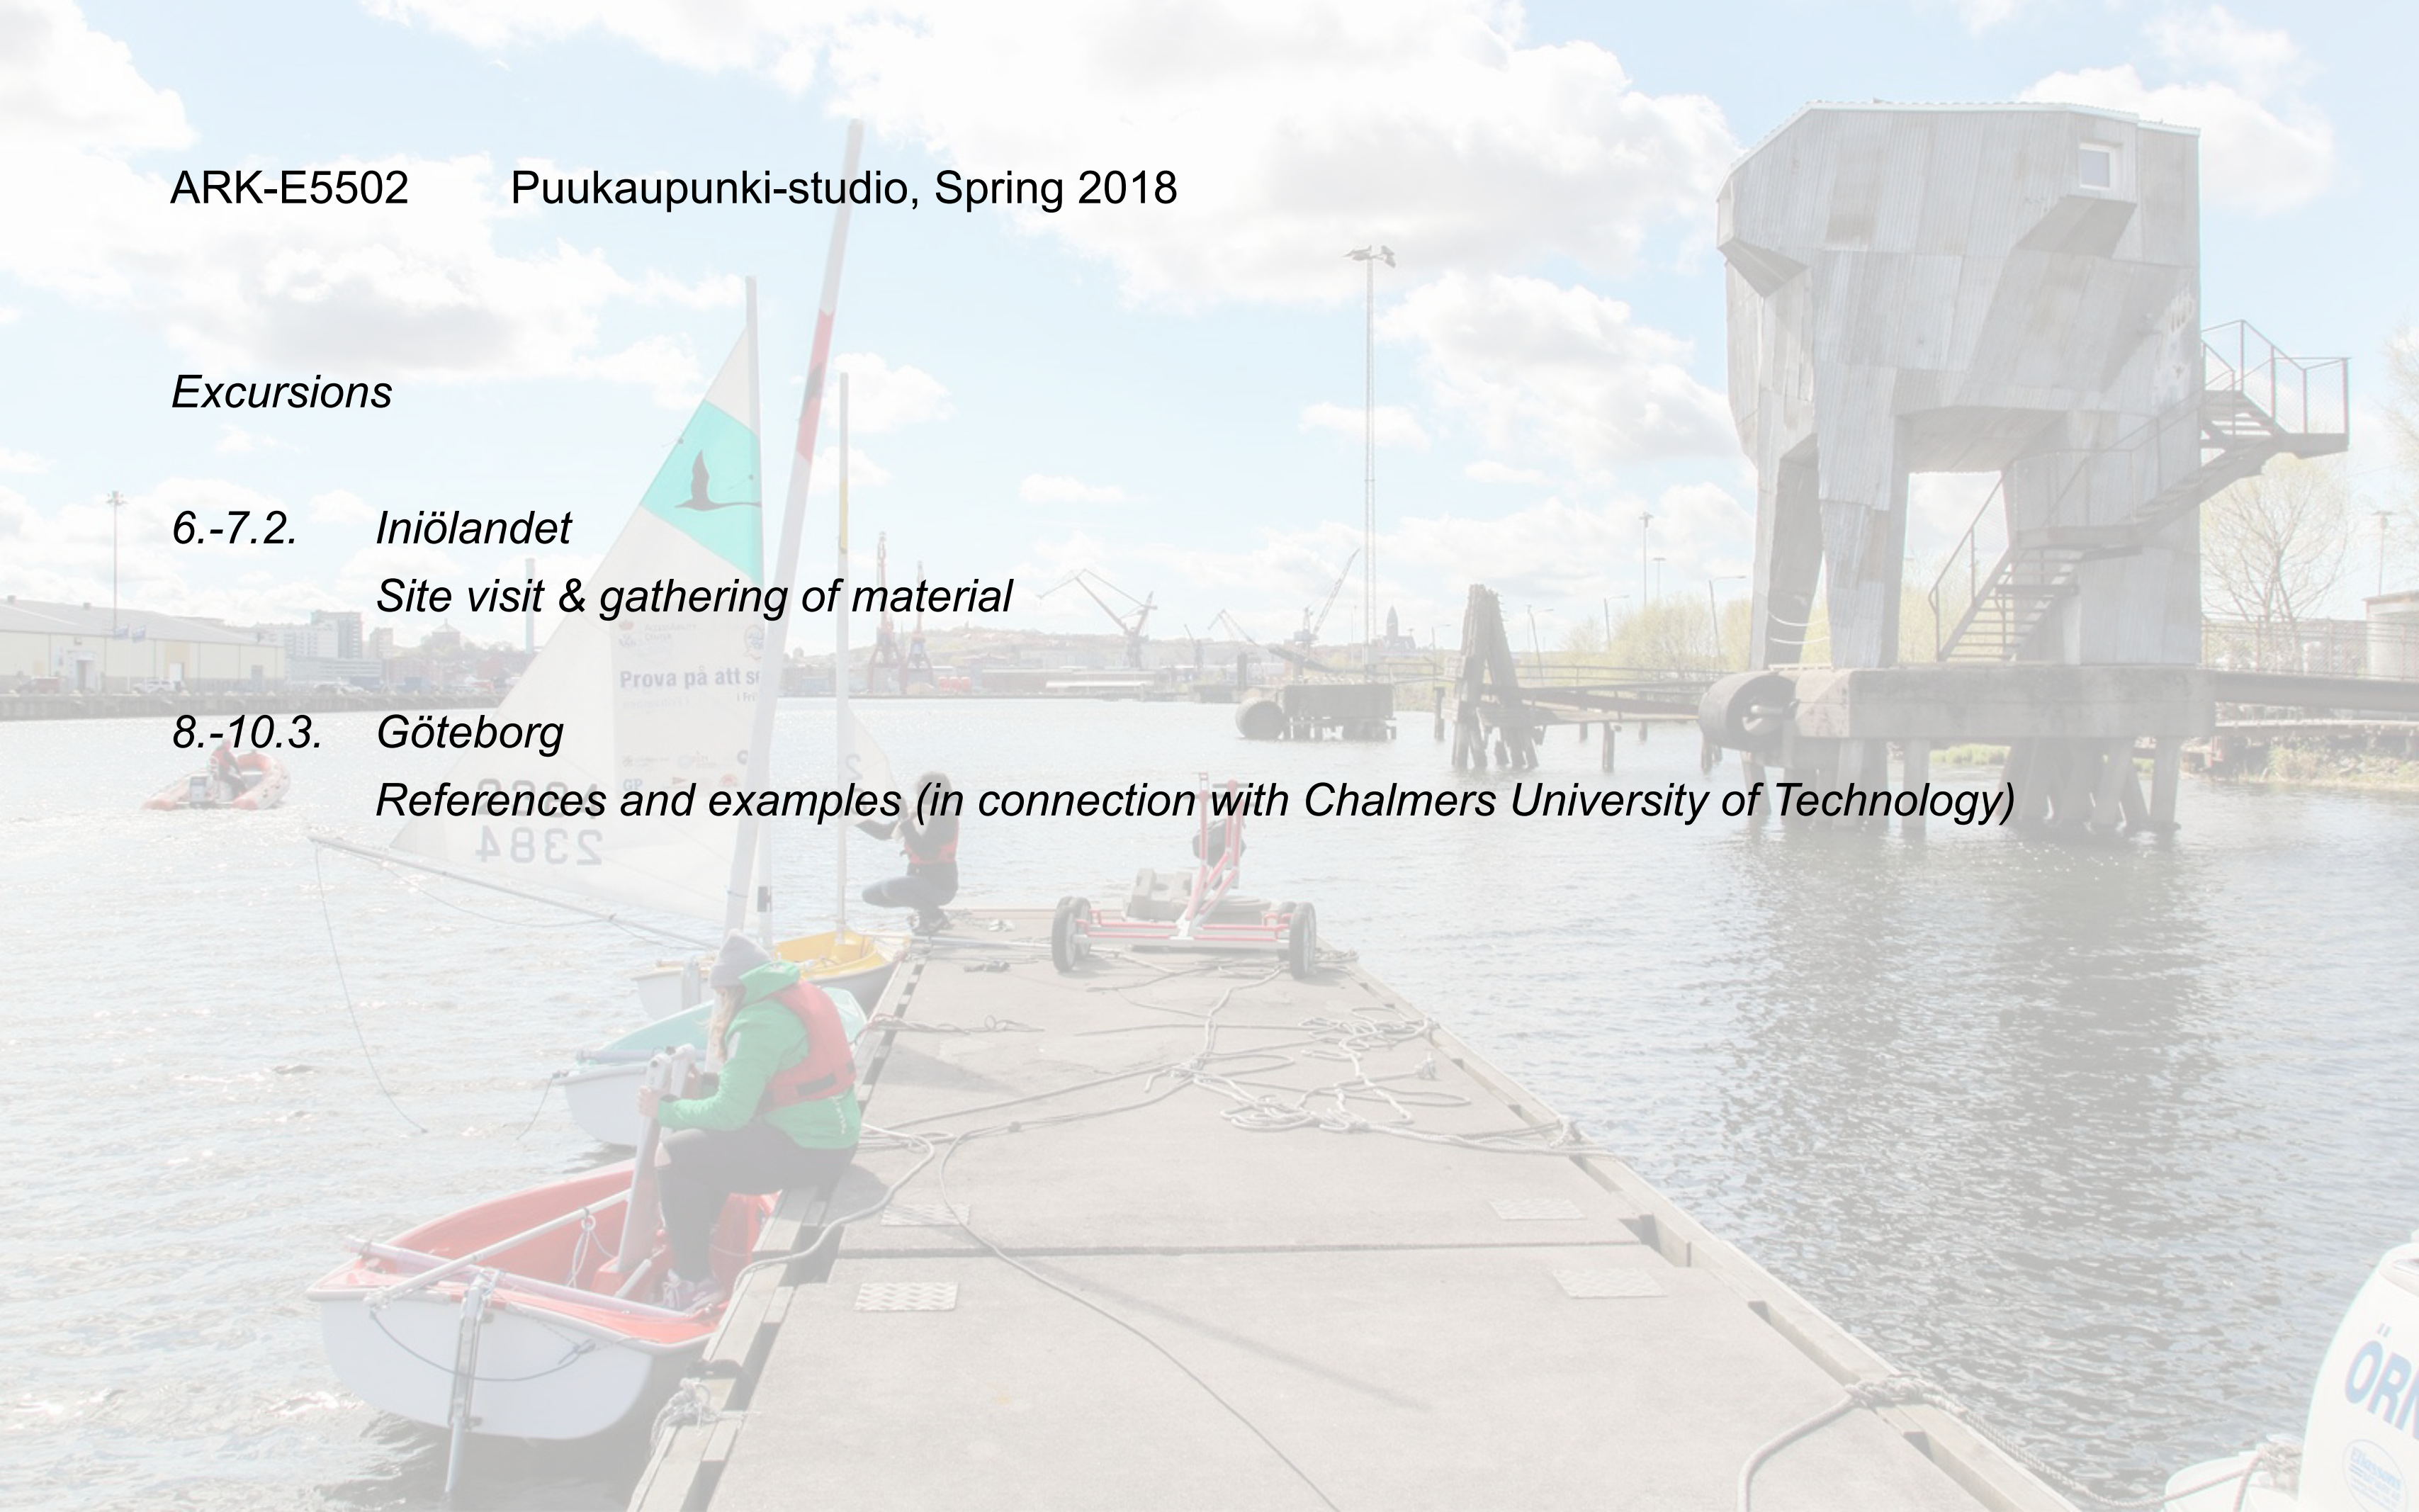

*Excursions*

6.-7.2. *Iniölandet*

*Site visit & gathering of material*

8.-10.3. *Göteborg*

*References and examples (in connection with Chalmers University of Technology)*
